REPORT OF EXTENSION ACTIVITY 2019-2020

In this academic year 2019-20, Department of Business Administration undertook extension activity in Nedumarn village near Tirupattur on 21st and 22nd September 2019. All the staff members of the department and 56 students of II - BBA participated in the program. Extension programme help to develop the feeling of oneness, empathy and compassion. The extension activities are conducted on societal and environmental issues, through Co- curricular forums along with university. The department has reached out the students to the rural village people by performing various activities for ensuring sustainable livelihood as part of the social responsibility Programme. This activity is conducted carving out a young generation who would take an active role in social activities. Activities indulged were cleaning of school campus, created awareness among the school students about importance of education and cleanliness, and cleaning of Temple premises in the village. This Programme was carried out at the Government School as a part of the various efforts to inculcate the habit of cleanliness in the place where the education is provided.

Outcome of the Program:

During the 2019-2020 period, Nedumaram Village in Tirupattur Taluk, Sivagangai District, engaged in several community-focused endeavors. Firstly, concerted efforts were made to uphold cleanliness standards within the school campus. Concurrently, educational sessions were conducted to instill awareness among students regarding the pivotal roles of education and cleanliness in fostering a healthy and prosperous community. Moreover, a dedicated initiative targeted the cleansing of the temple premises within the village. Although the document does not specify the outcomes of these endeavors, it can be inferred that they aimed to enhance sanitation levels, foster student engagement, and promote community participation in maintaining communal spaces.

EXTENSION ACTIVITIES

ACADEMIC YEAR 2019-20

The students and faculty members of the Chemistry Department at Arumugam Pillai Seethai Ammal College, Tiruppattur, organized a two-day program in the villages of Korati and Thulavoor on August 7th and 8th, 2019, respectively. This initiative aimed to address various aspects of community welfare and environmental consciousness.

On the first day, the students divided into groups to undertake different activities in Korati village. One group focused on the sanitation and cleanliness of the Siva temple in Korati, ensuring that the sacred space was free from debris and properly maintained. Simultaneously, another group of students engaged in a practical demonstration highlighting the prevention of dengue fever. They identified and cleaned potential mosquito breeding sites within households, educating residents on the importance of eliminating stagnant water sources to control mosquito populations. This hands-on approach allowed them to visit every household and provide personalized guidance on maintaining a dengue-free environment. To complement these practical efforts, informative pamphlets were distributed to the residents, emphasizing several key concepts:

Avoiding Non-Recyclable Plastics:

The pamphlets stressed the detrimental effects of non-recyclable plastics on the environment and encouraged residents to minimize their use. By raising awareness about the hazards of plastic pollution, the community was urged to adopt eco-friendly alternatives and participate in waste management practices.

Avoiding Tobacco Products:

Another critical aspect highlighted was the avoidance of tobacco products due to their adverse health effects, such as lung cancer and oral cancer. By educating residents about the risks associated with tobacco consumption, the program aimed to promote healthier lifestyle choices within the community.

Rainwater Harvesting.

The importance of rainwater harvesting was underscored as a sustainable water conservation practice. Residents were encouraged to implement rainwater harvesting systems to harness and utilize rainwater effectively, thereby mitigating water scarcity issues and reducing reliance on groundwater sources.

Essentials of Soil Testing and Fertilizer Usage.

The pamphlets provided insights into the significance of soil testing for agricultural productivity. By understanding the nutrient composition of their soil through testing, farmers could optimize fertilizer usage, ensuring balanced and efficient crop growth while minimizing environmental impact. Through these combined efforts, the program sought to empower the communities of Korati and Thulavoor with knowledge and practical solutions to address environmental, health, and agricultural challenges, fostering sustainable development and well-being.

Appearance of Siva Temple area before cleaning by the students

Appearance of Siva Temple area after cleaning by the students

On the second day one part of students cleaned the source canal of the pond and society hall in Thulavoor and the another part of the students demonstrated the prevention of dengue fever by cleaning the source of mosquito breeding site in the houses and explained them by visiting every house.

The following concepts were emphasized through pamphlets that were supplied to them.

- Avoiding non-recyclable plastics that create environmental pollution
- Avoiding tobacco products that may create health problems like lungs cancer, oral cancer
- Rain water harvesting,
- Essential of soil testing and using the calculated amount of the needed fertilizers

TIRUPPATTUR – 630 211.

RESEARCH DEPARTMENT OF COMMERCE

REPORT ON EXTENSION ACTIVITIES (2019 – 2020)

Extension is an important activity which contributes to the enhancement of the status and welfare of the society at large. Keeping this view in mind the II year B.Com students carried out extension activity from 28th September, 2019 to 29th September, 2019 at Aadhi Thiruthalinadhar temple, Tiruppattur with the motto of cleanliness and dengue awareness.

Day– 1

All the second year B.Com students came into Aadhi Thiruthalinadhar temple, Tiruppattur. They were grouped among themselves worked for Removal of Plastics, Removal of Glass Bottles and shrubs inside the temple and locating dustbins.

Removal of Glass Bottles and shrubs inside the temple

Female students removal of shrubs inside the temple

Male students removal of Bottles inside the temple

Day- 2

DENGUE AWARENESS PROGRAMME

Dengue Awareness fieldwork was organised by Department of commerce along with around 110 students in order to provide healthy and friendly environment. The intention of the fieldwork was to ensure clean and stagnant free drainage. The residents of the tiruppattur were distributed with awareness pamphlets and they were given counselling to observe cleanliness to enjoy disease free life. Mr.R.Mariappan, Associate professor and H.O.D. of Commerce conducted an awareness class about the Dengue fever symptoms that includes fever, intense headache, body aches, joint pains, loss of appetite, nausea,

vomiting, skin rashes and mucosal bleeding. He denoted that there is no specific treatment for dengue fever, but adequate fluid intake and bed rest is important.

He also emphasized the precautionary measures like reduce the amount of skin exposed by wearing long pants, long-sleeved shirts and socks, tucking pant legs into shoes or socks, wearing a hat, use mosquito repellents, mosquito traps and nets. This lecture was received with admiration by the students. The event ended with vote of thanks.

சண்முகம் நன்றி கூறினார்.

மாணவர்கள் உழவாரப்பணி

திருப்பத்தூர், செப்.30-

திருப்பத்தூர் ஆறுமுகம்பிள்ளை சீதையம்மாள் கல்லூரி வணிகவியல் துறை மாணவர்கள் அழகப்பா பல்கலைக்கழக புறவிரிவாக்கத் திட்டத்தின் கீழ் ஆதித்திருத்தளிநாதர் கோவிலில் உழவாரப்பணியில் ஈடுபட்டனர். இதை கல்லூரி செயலர் ஆறுமுகராஜன் தொடங்கி வைத்தார். துறைத் தலைவர் மாரியப்பன் தலைமை தாங்கினார். இதில் மாணவர்கள் கோவில் வளாகத்திற்குள் இருந்த செடிகளையும், கட்டுமானங்களில் படிந்துள்ள தூசிகளையும் அகற்றினர். பின்னர் பொதுமக்களுக்கு மழை நீர் சேகரிப்பின் அவசியம் குறித்தும், சுற்றுப்புற தூய்மை பற்றியும், டெங்கு போன்ற தொற்று நோய்கள் பரவும் விதமும் அவற்றை தடுப்பது குறித்தும் விழிப்புணர்வு செய்தனர். இதில் துறை பேராசிரியர்கள் மற்றும் கோவில் ஊழியர்கள், தன்னார்வலர்கள் உள்பட பலர் கலந்து கொண்டனர்.

THIRUPPATHUR.

DEPARTMENT OF INFORMATION TECHNOLOGY

Extension activities for 2019-2020

- ❖ Name of the village - Alampatti
- ❖ Activity name with details – Tree Plantation & Computer Literacy Program
- ❖ Number of students participated - 44
- ❖ Number of faculty members participated – 2
- ❖ Date : 6/10/2019,7/10/2019

This year our second year IT students planted 150 seedlings to their home and adopted village under Extension Activity programme for 104th Birth Anniversary of our beloved founder Vallal Arulmamani Thiru. NTS. Arumugam Pillai. We request **150 seedlings** from tamilnadu Forest department. They Issued 50 neem + 50 Teak + 20 Kontrai + 30 Neer maruthu seedlings. Every yearwe are following the Slogan like **One Tree for Family [Teak] & One Tree for Society[Neem]** .

Our department effectively participated and voluntarily involved in Tree plantation. This year our students planted more than 500 saplings with pasumai baratham club at Alampatti village.

Our Students are also doing the following Activities in their native villages.

| | |
|-------------------|--|
| Activities | <ul style="list-style-type: none">❖ Conduct the computer classes for Government school students.❖ Tree plantation❖ To give the Medical awareness to Village people. |

EXTENSION ACTIVITIES REPORT (2019-20)

The Department of Computer Science at Arumugam Pillai Seethai Ammal College, Tiruppattur, exemplified its dedication to community welfare and engagement through a two-day extension activity held at Adhi Thiruthalinathar Alayam on the 28th and 29th of September 2019. This endeavor aimed not only to serve the local populace of Tiruppattur but also to extend its benefits to the surrounding villages. Through meticulous planning and coordination, the

department orchestrated a series of impactful events designed to benefit individuals from various walks of life. These activities encompassed a wide spectrum, ranging from educational workshops to practical demonstrations aimed at enhancing digital literacy and technological proficiency among the community members. Moreover, the extension activities served as a platform for fostering collaboration and knowledge-sharing between the college faculty, students, and the local community.

Activity-1: Cleaning the Temple - 28-09-2019

Maintaining cleanliness is paramount for ensuring a healthy and safe environment for individuals, and this principle holds particular significance within the premises of a temple. Recognizing the importance of cleanliness in fostering a conducive atmosphere for worship and community engagement, 42 students and 4 staff members from our institution dedicated a day to contribute to the cleanliness of a local temple. Through their collective efforts and commitment, they served as a human force to undertake various tasks aimed at improving the temple environment. Sweeping, mopping, and cutting the grass were among the activities diligently performed by the volunteers, reflecting their dedication to ensuring the upkeep of the sacred space. Their proactive engagement in these housekeeping methods not only enhanced the aesthetic appeal of the temple but also helped in preventing potential health hazards. By actively participating in such community-driven initiatives, the students and staff members demonstrated their sense of responsibility towards fostering a clean and hygienic environment for all temple visitors. Their selfless contribution exemplifies the spirit of service and underscores the significance of collective action in promoting the well-being of the community. Overall, their efforts serve as a shining example of how individual actions, when united for a common cause, can make a meaningful difference in ensuring the cleanliness and sanctity of sacred spaces.

Outcome of the Program

The program dedicated to cleaning the local temple premises by 42 students and 4 staff members from our institution yielded significant outcomes that positively impacted both the temple and the community. Their collective efforts exemplified a profound sense of responsibility towards fostering cleanliness and sanctity within the sacred space. Through meticulous tasks such as sweeping, mopping, and grass cutting, the volunteers not only enhanced the aesthetic appeal of the temple but also effectively mitigated potential health hazards. This proactive engagement underscored the importance of maintaining a clean and hygienic environment, particularly within religious settings, to ensure the well-being of all visitors. Moreover, their selfless contribution served as a powerful demonstration of the spirit of service and community solidarity. Overall, the program's success highlights the transformative potential of collective action in promoting cleanliness and fostering a sense of communal responsibility towards preserving cultural heritage and enhancing the quality of life for all.

Activity-2: Dengue Fever Awareness - 28-09-2019

The extension activity conducted by our students had a significant impact on raising awareness about Dengue fever among the residents of our hometown. By distributing notices detailing the symptoms and prevention measures for Dengue fever, our students played a crucial role in educating the community about this potentially dangerous disease. Dengue fever, characterized by sudden onset symptoms such as fever lasting 3 to 7 days, intense headache, muscle and joint pain, loss of appetite, vomiting and diarrhea, skin rash, and bleeding from the nose or gums, poses a serious health risk if left untreated. Through their proactive efforts, our students aimed to equip individuals with the knowledge needed to recognize the symptoms of Dengue fever early on and take appropriate preventive measures to mitigate its spread. Furthermore, the enthusiasm and dedication exhibited by our students during this extension activity were fueled by the positive reception and kindness shown to them by the community members. This reciprocal exchange of joy and kindness served as a motivating force, inspiring our students to continue their efforts in serving the welfare of the people. By fostering a sense of empathy and compassion, this experience not only empowered our students to make a tangible difference in the lives of others but also reinforced the importance of community engagement and collective action in addressing public health concerns. Overall, the extension activity not only contributed to raising awareness about Dengue fever but also served as a catalyst for nurturing a culture of altruism and service among our students. Through their commitment to serving the community and their proactive approach to addressing pressing health issues, our students have demonstrated their potential to effect positive change and make a meaningful impact on the well-being of society.

Outcome of the program

The outcome of the program was highly impactful, with significant positive effects on both Dengue fever awareness and community engagement. Through the distribution of informative notices detailing Dengue fever symptoms and prevention measures, the program successfully raised awareness among residents of the hometown. This increased awareness equipped individuals with the knowledge needed to recognize early symptoms of Dengue fever and take appropriate preventive measures, thereby mitigating its spread.

Moreover, the enthusiastic and dedicated efforts of the students during the extension activity fostered a sense of empathy and compassion within the community. The positive reception and kindness shown by community members served as a motivating force for the students, inspiring

them to continue their efforts in serving the welfare of the people. Additionally, the program served as a catalyst for nurturing a culture of altruism and service among the students. Their proactive approach to addressing pressing health issues and commitment to serving the community demonstrated their potential to effect positive change and make a meaningful impact on the well-being of society. Overall, the outcome of the program underscored the importance of community engagement and collective action in addressing public health concerns. It showcased the effectiveness of proactive initiatives in raising awareness and fostering a culture of service, ultimately contributing to the enhancement of community well-being.

RESEARCH DEPARTMENT OF ECONOMICS
EXTENSION ACTIVITIES – 2019 -2020
II B.A. ECONOMICS (EM & TM)

The Extension Activities Programme conducted by the Department of Economics for II B.A. Economics (EM & TM) Students stands as a testament to the department's commitment to community engagement and welfare. With the active participation of 14 staff members and nearly 96 students, the program was executed with enthusiasm and dedication. The chosen village, Ranasingapuram, adopted by our department, became the focal point for our efforts aimed at promoting "Health and Personal Hygiene" among the local populace. Our students played a pivotal role in disseminating essential knowledge about maintaining personal hygiene and cleanliness to ensure a healthy environment. Emphasizing the importance of cleanliness in fostering a healthy mind and body, they imparted valuable lessons on keeping the surroundings clean and free from disease-causing agents. A particular emphasis was placed on discouraging the use of plastic covers, which not only degrade soil fertility but also contribute to environmental pollution. As part of their hands-on approach, students actively participated in cleaning activities, collecting bottles, coconut shells, and other materials that could serve as breeding grounds for mosquitoes. Moreover, our students took proactive measures to interact with the local community, raising awareness about the detrimental

effects of plastic usage and mosquito infestation. Through these interactions, they aimed to instill a sense of responsibility and collective action among the villagers towards eradicating plastic waste and combating mosquito-borne diseases. The commendable efforts of our students did not go unnoticed, as they were felicitated and encouraged by the administrative staff of Ranasingapuram Panchayat. This recognition serves as a testament to the positive impact of our Extension Activities Programme and underscores the importance of collaborative efforts in fostering community development and well-being. In essence, the Extension Activities Programme conducted by the Department of Economics not only served as a platform for imparting valuable knowledge but also exemplified our commitment to creating a healthier and more sustainable future for the community of Ranasingapuram. Through education, advocacy, and hands-on initiatives, our students demonstrated their dedication to making a meaningful difference in the lives of others and contributing to the greater good of society.

Outcome of the Program

The Extension Activities Programme by the Department of Economics for II B.A. Economics (EM & TM) Students showcased our commitment to community welfare. With 14 staff members and nearly 96 students, we focused on promoting "Health and Personal Hygiene" in Ranasingapuram village. Our students educated residents on personal hygiene and cleanliness, emphasizing the harmful effects of plastic usage and mosquito infestation. Through hands-on cleaning activities and

community interactions, we aimed to instill a sense of responsibility. The program's success was recognized by the Ranasingapuram Panchayat, underscoring the positive impact of our efforts. Overall, our program exemplified our dedication to creating a healthier and more sustainable community through education and action.

| Date/Place: 12th and 13th October, Pudupatti | Date/Place: 12th and 13th October, Pudupatti |
| | |
| Programme: Conservation of Nature Bodies and Dengue Awareness | Programme: Conservation of Nature Bodies and Dengue Awareness |
| | |

Apart from serving the school children of the Government High School, T. Pudupatti by taking free coaching classes in English, our Department has taken a step further to extend its community-oriented services to benefit the villagers by adopting the village, T.Pudupatti. The staff members of the Department of English and II year B.A. English Literature went to T.Pudupatti ,on 12 and 13th October for the village development programme. Dr.V.Gurudev Rajan H.O.D of English of our college offered felicitations. Mr. K.R. Balamuruges and Mr. P. Subbiah Senthil Kumar , Mrs .J. Felcia Gnanatheepam, Mrs.C.Kanagasudha, Dr.N.Aruna Devi, Dr, S. Hannah Evangeline ,Dr. J. Adalin Monika, Dr.Mani mekalai ,M.Vijaya Sarathi,R.Mercy,S.Saranya,P.Bavani participated in the functions.The main objective of the program is to educate and sensitize a college student about the problems and practices of a common man so that the student can understand the ground reality on the various problems and practices of a common man.

The Department of English at our institution has embarked on a transformative initiative by adopting T.Pudupatti, a village situated in the Sivagangai district. Positioned along the Tiruppathur-Pudhukottai national highway, merely 4km away from our college, this village has become the focus of our efforts towards community development and environmental stewardship. At the heart of T.Pudupatti lies the Government Higher Secondary School, serving as a beacon of education for the local populace. With the collaborative support of the Panchayat president and active participation from the village residents, our department has initiated a multifaceted approach towards uplifting the village and fostering a culture of environmental consciousness. One of the primary endeavors undertaken was

the school campus cleaning program, aimed at instilling a sense of pride and ownership among students towards their educational environment. Additionally, tree saplings were planted within the school campus, symbolizing our commitment to environmental sustainability and green initiatives. Moreover, our engagement extended beyond the school premises through door-to-door campaign programs, meticulously designed to raise awareness on various pertinent issues. Local villagers were educated on environmental conservation practices, such as rainwater harvesting and cleanliness of surroundings, through the distribution of informative pamphlets. Furthermore, efforts were made to combat health-related challenges by disseminating knowledge on dengue awareness and other health issues affecting the community. In line with our commitment to education, PowerPoint presentations on topics related to English were delivered to the Higher Secondary School students, providing them with valuable insights and enhancing their academic pursuits. Additionally, rallies were organized to amplify awareness on environmental concerns, mobilizing community members towards collective action and advocacy. Through these concerted efforts, the Department of English strives to not only enrich the educational experience of the local students but also empower the community with essential knowledge and skills to foster sustainable development. By nurturing a sense of environmental stewardship and promoting holistic well-being, we aim to create a brighter and healthier future for the residents of T.Pudupatti and beyond.

Outcome of the Program:

The program focusing on the conservation of nature bodies and Dengue awareness yielded significant outcomes. Through active participation from 66 students and 13 teachers, awareness about the importance of preserving natural habitats and preventing Dengue fever was effectively disseminated. Participants engaged in hands-on activities such as cleaning and conserving local water bodies, parks, and green spaces, contributing to environmental sustainability. Additionally, Dengue awareness sessions equipped attendees with knowledge about the symptoms, prevention measures, and the importance of eliminating mosquito breeding sites. The collaborative efforts of students and teachers resulted in increased community awareness and involvement in environmental conservation and public health initiatives. Overall, the program successfully promoted a sense of responsibility towards nature conservation and disease prevention among participants and the wider community of Pudupatti.

Students giving awareness related to common environmental issues and health problems.

DEPARTMENT
OF
HISTORY

ARUMUGAM PILLAI SEETHAI AMMAL COLLEGE

THIRUPPATHUR

DEPARTMENT OF HISTORY

EXTENSION ACTIVITY 2019-20

The Department of History undertook a commendable two-day extension activity at Thiruthalinathar temple in Tiruppattur on the 5th and 6th of October 2019, demonstrating their commitment to community service and environmental stewardship. A total of 46 students from our department actively participated in the program, showcasing their social consciousness and eagerness to contribute positively to their surroundings. On the first day of the program, the focus was on environmental conservation. Our staff members efficiently organized the students into three groups and assigned them specific areas within the temple premises for cleaning. With meticulous attention to detail, the students diligently collected stones, renewable waste such as dry leaves and twigs, as well as non-renewable waste including plastic items and carry bags. The segregation of waste was carried out meticulously, with renewable waste being directed to the vermi-composed tank for environmentally friendly disposal. The second day of the extension activity centered on a health program aimed at addressing the pressing issue of dengue in the surrounding areas of the Thiruthalinathar temple. Through informative sessions, the villagers were educated on the sources and symptoms of dengue, as well as natural remedies such as Nila vembu and papaya tree leaves for recovery. A total of 33 boys and 14 girls from our department actively participated in the cleaning activities within the temple premises, ensuring every part of the temple was thoroughly cleaned. Additionally, our students took on the role of educators, imparting knowledge to the public on the importance of cleanliness in and around the temple. The successful execution of these extension activities was made possible through the concerted efforts of all staff members and students involved. Their dedication and enthusiasm not only

contributed to the beautification and cleanliness of the temple but also served as a catalyst for promoting awareness on environmental conservation and public health issues within the community. Moving forward, the Department of History remains committed to fostering a culture of service and social responsibility among its students, with the aim of making a lasting positive impact on society.

OUTCOME OF THE PROGRAM

The two-day extension activity conducted by the Department of History at Thiruthalinathar temple in Tiruppattur on October 5th and 6th, 2019, yielded significant outcomes, showcasing the department's commitment to community service and environmental stewardship. With 46 students actively participating, the program demonstrated their social consciousness and eagerness to contribute positively to their surroundings. The first day focused on environmental conservation, with students diligently cleaning specific areas within the temple premises. Meticulously segregating waste, they directed renewable waste to the vermi-composed tank for environmentally friendly disposal. On the second day, a health program addressed the pressing issue of Dengue in the surrounding areas. Villagers were educated on Dengue sources, symptoms, and natural remedies like Nila vembu and papaya tree leaves. Active participation from 33 boys and 14 girls ensured thorough cleaning of the temple premises, while also educating the public on cleanliness importance. The successful execution of these activities was attributed to the concerted efforts of staff members and students involved. Their dedication not only beautified the temple but also raised awareness on environmental conservation and public health issues. Moving forward, the Department of History remains committed to fostering a culture of service and social responsibility among its students, aiming to make a lasting positive impact on society.

TRANSLATED VERSION OF THE ABOVE CERTIFICATE

This is to certify that the II year students of History from Arumugam Pillai Seethai Ammal College, Thiruppathur actively participated in the cleaning and maintenance of the Thiruthalinathar Temple premises on 6th October 2019. Their dedication and hard work in ensuring the cleanliness and tidiness of the temple campus are commendable. Through their efforts, they have significantly contributed to the beautification and upkeep of our sacred temple. We extend our heartfelt gratitude to each student for their voluntary involvement and commitment to this noble cause.

Department of Mathematics

Report for Extension Activities (2019-2020)

Date: 12.10.2019 – 13.10.2019

Location: Nedumaram village

Participants:

- 5 staff members
- 41 II B.Sc Mathematics students

Activities:

- **Tree plantation:** Contributing to environmental sustainability by planting trees.
- **First-aid and self-hygiene awareness:** Educating villagers about essential first-aid practices and personal hygiene.
- **Rain harvesting and pollution control awareness:** Raising awareness about rainwater harvesting techniques and pollution control measures through charts and demonstrations.
- **Clean-up activities:** Cleaning the school premises, temple corridor, and Panchayat union office to promote cleanliness and hygiene.
- **Distribution of saplings:** Providing saplings to villagers to encourage tree planting and greenery.
- **Cultural program:** Organizing a cultural program for school children to promote artistic expression and cultural exchange.

Staff Members Involved:

- Mrs. L.A. Sukanya
- Dr. A. Balasubramanian
- Dr. B. Arunraj
- Mr. N. Sekar
- Mrs. S. Uma

This initiative demonstrates a holistic approach towards community development and education, covering environmental, health, and cultural aspects. Such programs play a vital role in fostering community engagement and promoting sustainable practices.

Outcome of the Program:

The program led by 5 staff members and 41 II B.Sc Mathematics students resulted in several positive outcomes. Firstly, tree plantation activities contributed to environmental sustainability, enhancing green cover in the area. Secondly, awareness sessions on first-aid practices and personal hygiene equipped villagers with essential life-saving skills and promoted health awareness. Additionally, demonstrations and educational materials on rainwater harvesting and pollution control raised awareness among participants. Clean-up activities significantly improved the cleanliness and hygiene of school premises, temple corridors, and the Panchayat union office. The distribution of saplings encouraged villagers to engage in tree planting initiatives, promoting environmental conservation. Lastly, the cultural program fostered artistic expression and cultural exchange among school children, enriching community bonds. Overall, the program successfully achieved its objectives of promoting environmental sustainability, health awareness, cleanliness, and cultural enrichment within the community.

2019 – 2020 – Extension Activities – Nedumaram – School

The students are explaining how to solve mathematics to easy way through charts on 12-10-2019.

The students are explaining pollution control on 12-10-2019

The students are cleaning the school premise on 12-10-2019

DEPARTMENT OF PHYSICS

ARUMUGAM PILLAI SEETHAI AMMAL COLLEGE
DEPARTMENT OF PHYSICS
EXTENSION ACTIVITIES REPORT

Date: 12.10.2019 & 13.10.2019

Physics students (39) from Arumugam Pillai Seethai Ammal College, along with staff members, engaged in extension activities at Government Higher Secondary School, Kottaiyeruppu, Tiruppattur. These activities not only contribute to their academic pursuits but also serve the community by raising awareness about important issues like Dengue fever and environmental conservation.

Dengue Fever Awareness.

Dengue fever is a significant health concern, especially in areas where the Aedes mosquito thrives. By conducting awareness programs and rallies on 12th and 13th October 2019, the students aimed to educate the villagers about preventive measures such as maintaining clean surroundings, avoiding stagnant water, and promoting good hygiene practices. This proactive approach can help reduce the risk of Dengue fever transmission within the community.

Promoting Green Environment

The students highlighted the importance of eco-friendly practices and products to preserve the environment and improve overall health. By advocating for the use of green energy products, recycling, and planting trees, they encouraged sustainable living habits among the villagers. These efforts not only contribute to mitigating environmental issues like pollution and climate change but also promote long-term sustainability.

Educational Outreach

Engaging with rural school students and staff members to teach basic science concepts fosters interest in the subject and encourages scientific curiosity. By sharing their knowledge and experiences, the college students inspired younger learners to pursue science education and embark on their own scientific journeys.

Planting Saplings

Planting trees like Neem and Mango in the school ground not only contributes to environmental conservation but also serves as a hands-on learning experience for the school students. It instills a sense of responsibility towards nature and encourages them to actively participate in environmental preservation efforts. Overall, these extension activities demonstrate the students' commitment to academic excellence, community service, and environmental stewardship. By actively engaging with the community and promoting awareness and action on important issues, they embody the values of responsible citizenship and leadership. Such initiatives not only benefit the immediate community but also contribute to creating a more sustainable and healthy future for all..

II Physics students planted the saplings with Faculty of physics at Kottaiyeruppu Govt. Higher secondary school- As a part of extension activity on 12.10.2019.

II Physics students with staff members gave the Dengue awareness rally at Kottaiyeruppu village on 12.10.2019.

Miss Rahila Parveena taught some basic concepts of Physics to Higher secondary students -as part of Extension activity on 13.10. 2019.

The students and staff members are listening the talk on 13.10.2019 -as a part of Extension Activity.

Participation list

| s.no | Class no | Name of the students |
|------|----------|----------------------|
| 1 | 182201 | K. ABINAYA |
| 2 | 182203 | S. ALAGU JOTHIKA |
| 3 | 182204 | P. ARIFA BEGAM |
| 4 | 182205 | R. ASHIYA BEGAM |
| 5 | 182206 | P. BHUVANESHWARI |
| 6 | 182208 | A. KARTHIKA |
| 7 | 182209 | S. KARTHIKA |
| 8 | 182210 | P. MADHUBALA |
| 9 | 182211 | P.MAHESWARI |
| 10 | 182212 | A. MALAR JOTHI |

| 34 | 182236 | M. ANANTHA KUMAR |
| 35 | 182237 | N. JANA |
| 36 | 182238 | R. MAHESHWARAN |
| 37 | 182239 | K. MATHESHWARAN |
| 38 | 182240 | T. SANTHOSH KUMAR |
| 39 | 182241 | N. VINOTH KUMAR |

| S.NO | Name of the teaching staff | Designation |
|-------------|-----------------------------------|---------------------------|
| 1 | Mr.N.S.Saravanan | Associate professor & HOD |
| 2 | Dr.M.Ravikumar | Associate professor |
| 3 | Dr.S.Marikkannu | Assistant professor |
| 4 | Dr.Y.B.Kannan | Assistant professor |
| 5 | Dr.M.Ramachandran | Assistant professor |
| 6 | Dr.R.Premarani | Assistant professor |

Slogans

- 1) Avoid the mosquito, so to avoid the dengue.**
- 2) Do the killing of mosquito, before you got dengue.**
- 3)The life is at risk, when mosquito is there.**
- 4) Dengue is about the deadly disease, avoid it.**
