ACTIVITY 1: Palm Tree Seed Planting

On November 1, 2022, second-year students embarked on a meaningful journey to Nerkupai village to participate in a palm seed plantation program. Driven by the noble goal of creating a greener and cleaner nation, a group of ten students enthusiastically engaged in planting palm seeds as part of this initiative. Their efforts aimed to not only beautify the surroundings but also to contribute to environmental conservation and sustainability. Throughout the day, the students worked tirelessly, planting nearly 50 palm seeds in various locations around the village campus. To ensure the success of the plantation program, proper fencing and irrigation channels were provided, facilitating easy irrigation and optimal growth conditions for the newly planted seeds. The students' dedication and commitment to environmental stewardship were commendable, as they actively participated in every aspect of the plantation process. Their enthusiasm served as an inspiration to others, encouraging greater involvement in similar initiatives aimed at preserving our natural resources and enhancing the beauty of our surroundings. The villagers of Nerkupai expressed their heartfelt appreciation for the students' support and interest in improving the local environment. Their gesture of gratitude reflected the profound impact of community collaboration and the collective efforts toward a common goal of creating a more sustainable and eco-friendlier habitat for all. Overall, the palm seed plantation program in Nerkupai village served as a shining example of how small acts of environmental kindness can culminate in significant positive changes for both present and future generations. Through their proactive engagement and dedication, the students demonstrated the power of collective action in fostering a greener and cleaner nation.

Outcome of the Programme:

Palm Tree Seed Planting: The environment and students benefited from this activity. The environment gained from reforestation efforts and increased biodiversity, while students gained hands-on experience in conservation, fostering a sense of responsibility towards nature.

ACTIVITY 2: Blind School Visit

A blind school visit was organized on 1.11.2022 by the students of the English Department. The objective of the visit was to make students understand the power of empathy, integration, and empowerment to a special section of society who are special for living their lives beautifully with self-confidence, dignity, and self-control. The blind people were

completely focused on their respective tasks and felt overwhelmed by the presence of students asking them their queries. Our students distributed chocolates and juices as token of love to all of them. They realized that we are blessed, and we can bless many others by giving love, support, empathy, and empowerment.

Outcome of the Programme

Blind School Visit: Both students and visually impaired individuals benefited from this activity. Students gained empathy, understanding, and awareness about disabilities, while visually impaired individuals experienced social integration and increased awareness and understanding from the visiting students.

ACTIVITY 3: Placing Bull's Eye on Headlights awareness

An awareness programme was organized on 2.11.2022 by the students of Arumugam Pillai Seethai Ammal College, Tiruppattur, English Department. Around 10 students used Bull's Eye stickers and placed them on the headlight of the two-wheelers at the Tiruppattur Bus stand, as a part of the Extension Activity. The objective of the campaign was to make students understand the value of placing Bull's eye stickers on the two-wheeler headlights. The two-wheelers were completely focused, and stickers were placed on the headlight and the use of placing Bull's eye was also explained.

Outcome of the Programme:

Placing Bull's Eye on Headlights Awareness: Drivers and pedestrians were the primary beneficiaries of this initiative. By raising awareness about road safety and proper lighting, it aimed to prevent accidents and injuries, ultimately benefiting all road users.

ACTIVITY 4: Wearing Helmet – An Awareness Programme

Safety awareness adds benefits for both the employer and employees. Stressing the importance of safety our II-year English Literature students prepared Placards and Banners to create awareness to wear Helmets. The awareness was done through a rally on 1.11.2022. Rally was inaugurated by our principal. All English faculty members motivated the students to participate in the program. The rally started at our college and ended at the Bus stand. All the way our students shouted slogans stressing the importance of wearing a Helmet. As part of the program, all the students carried out the campaign using placards holding slogans and distributed pamphlets on the importance of wearing helmets. At the end point, they gathered the public and gave a talk on road accidents occurring due to non-wearing of helmets. Even after the compulsory helmet rule enforcement our few fellow citizens choose not to wear helmets. Students took a pro-active effort to reach out to two-wheeler riders and create awareness to start wearing helmets immediately without any delay.

ACTIVITY 5: Teaching at an Elementary School

Teaching at an elementary school presents a unique blend of joy and challenges, as educators strive to ignite young minds and lay the foundation for lifelong learning. Recognizing the significance of this role, English Literature students from Arumugam Pillai Seethai Ammal College embraced the opportunity to engage with elementary school children in Tiruppattur. On November 2, 2022, these students embarked on a rewarding journey to impart knowledge and foster a love for learning through innovative teaching methods. Embracing the philosophy of learning through play, the college students infused their lessons with creativity and fun, making the educational experience enjoyable and memorable for the young learners. Through interactive games, storytelling sessions, and hands-on activities, they created an engaging environment conducive to exploration and discovery. Moreover, the English Literature students introduced various academic subjects to the kindergartners, tailoring their lessons to suit the children's developmental stage and learning capabilities. By employing age-appropriate teaching strategies and adapting content to their level, the students ensured that the young learners could grasp concepts effectively and build a strong academic foundation. Beyond academics, the college students also served as role models and mentors, inspiring confidence and enthusiasm for learning among the elementary school children. Through their patient guidance and encouragement, they instilled a sense of curiosity and a thirst for knowledge, nurturing the intellectual growth and personal development of their young charges. The experience of teaching at the elementary school not only enriched the college students' academic journey but also left a lasting impact on the lives of the children they taught. By fostering a positive learning environment and fostering a love for learning, the English Literature students exemplified the transformative power of education and the profound influence of dedicated educators in shaping future generations.

Outcome of the Programme:

Teaching at an Elementary School

This activity resulted in mutual benefits for both the students and the elementary school community. Students participating in teaching gained valuable experience in leadership, communication, and empathy, while the elementary school students received quality education and mentorship from enthusiastic role models. By sharing knowledge and fostering learning, the program contributed to the academic growth and personal development of both groups, promoting a culture of education and empowerment within the community.

2022-2023

EXTENSION ACTIVITIES:

Name of the Village	–	Student Native Place
Activity Name with details	–	Computer Literacy Programme & Awareness Programme
Number of students participated	–	16

Activities	<ul style="list-style-type: none">• Conduct computer classes for Government school students• To give Plastic awareness to Village people.• To give medical awareness to Village people.• To give pollution awareness to school students• To give Helmet awareness to people.• And to demonstrate kaavalan app and uzHAVAN app
-------------------	--

For extension activity, second year students were grouped into teams and rendered their social activity in the nearby villages. Awareness on usage of plastic was given to the public Sevalpatti, sokkanathapuram, seravayal, vairavanpatti, sembanur, thirumayam-rangiyam, seravayal puthur and thanipatti on 4.11.2022 and 5.11.2022. Usage of plastic and plastic pollution is nowadays a serious threat to biodiversity. Plastic usage brings several harmful effects to the human beings. Students interacted with the public people and enumerated the harmful effects. They also suggested to use alternative methods such as cloth bags for everyday use. They insisted to carry cloth bags whenever they go to purchase anything. Another group of students gave awareness on basic computer knowledge to the school students on 07.11.2022 at Vairavanpatti and seravayal. They taught about basic operations such as notepad usage and paint tools. Students also practiced the basic steps in laptops.

Outcome of the programme:

Outcome of Extension Activities:

The extension activities conducted by second-year students in nearby villages had a significant impact on both the local communities and the students themselves. By raising awareness about the harmful effects of plastic usage and providing alternatives, the students played a crucial role in mitigating plastic pollution and promoting environmental conservation. Through their interactions with the public, they educated individuals about the importance of reducing plastic consumption, thereby fostering a culture of sustainability and eco-consciousness. Furthermore, the initiative to impart basic computer knowledge to school students proved beneficial in enhancing their digital literacy skills. By teaching fundamental operations such as using notepad and paint tools, the students empowered the younger generation with essential computer skills, preparing them for the digital age and opening up new opportunities for learning and development.

Local Communities: The public in villages including Sevalpatti, Sokkanathapuram, Seravayal, Vairavanpatti, Sembanur, Thirumayam-Rangiyam, Seravayal Puthur, and Thaanipatti benefited from the awareness campaign on plastic usage. They gained knowledge about the harmful effects of plastic and were encouraged to adopt eco-friendly practices such as using cloth bags.

2. School Students: The students at Vairavanpatti and Seravayal schools benefited from the basic computer knowledge sessions. They acquired essential computer skills that will be valuable for their academic and professional growth, empowering them to navigate the digital world with confidence.

Certificate of Appreciation

This is to certify that Pillai Viramakali Balkrishna, C. Ranjith Kumar, and A. Ajay Kumar, second-year BVOC SD students, have demonstrated outstanding commitment and dedication in organizing and conducting an extension activity on plastic awareness and drug awareness for the public of Thirukoshtiyur. Through their initiative and tireless efforts, they have significantly contributed to raising awareness about the detrimental effects of plastic usage and drug abuse within our community. Their proactive approach in educating the public and advocating for sustainable practices exemplifies their exemplary leadership and social responsibility. We express our sincere gratitude and appreciation for their invaluable contribution towards creating a healthier and more informed society.

Certificate of Appreciation

This certificate is hereby awarded to M. Aswathi and M. Ishwarya, second year BVOC SD students, in recognition of their exceptional efforts in organizing and conducting an extension activity on office automation and social awareness for the students of P. Alagapuri Government School. Their dedication and enthusiasm in imparting knowledge and skills related to office automation have greatly enriched the learning experience of our students, equipping them with valuable tools for the future. Additionally, their initiative in promoting social awareness underscores their commitment to holistic education and community development. We extend our heartfelt appreciation for their invaluable contribution to the advancement of education and social consciousness within our school community.

RANASINGAPURAM.

Outcome of the Programme:

The outcome of the tree plantation activity was a greener environment with enhanced biodiversity, as participants contributed to environmental conservation efforts. The awareness programme on drugs eradication and reducing plastic usage resulted in increased community awareness about the harmful effects of drug abuse and plastic pollution. This led to a shift in attitudes towards adopting healthier lifestyles and more sustainable practices. Overall, both programmes fostered a sense of responsibility towards nature and community well-being among participants, promoting a cleaner and safer environment for all.

DEPARTMENT OF COMPUTER SCIENCE

EXTENSION ACTIVITIES REPORT (2022-23)

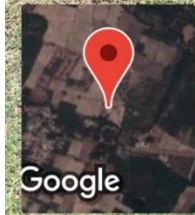

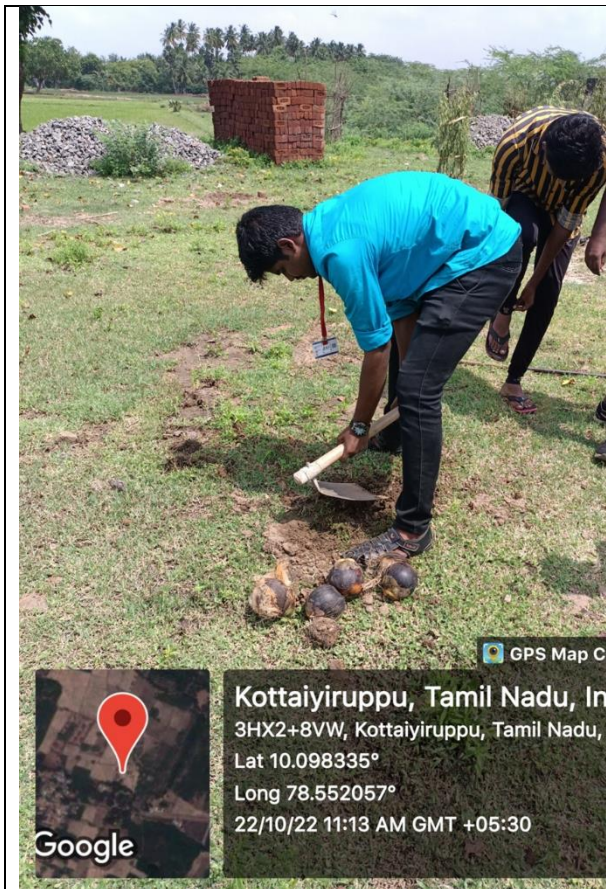

Department of Computer Science, Arumugam Pillai Seethai Ammal College, Tiruppattur is an Endeavour to carry out welfare measures to the people of Tiruppattur and surrounding villages, pursue extension activities. A crew of 45 members of II-Year B.Sc. Computer Science students has divided into 4 sub-groups and conducted their extension activities on 22/10/2022. The Group-A of students have conducted their extension activities on the topic of Planting Palmyra Palm at Kakkalipatti and Kottairruppu. The Group-B of students have conducted their extension activities on the topic of Road Safety Awareness at Singampunari. The Group-C of students have conducted their extension activities on the topic of Kavalan App awareness at Thiruvudaiyarpatti, Kottairruppu and Tiruppattur. The Group-D of students have conducted their extension activities on the topic of Uzhavan App awareness at Navinipatti.

Planting Palmyra Palm -Group-A

The Palmyra Palm tree, renowned for its multifaceted utility, serves as a valuable resource for human well-being across various domains. Its young roots possess medicinal properties, acting as both diuretics and anti-parasitic agents. Decoctions made from these roots are traditionally employed in treating respiratory and gastritis disorders, underscoring the tree's significance in traditional medicine practices. Moreover, the ripened fibrous outer layer of the palm fruit offers a nutritious source of sustenance. Whether consumed raw, boiled, or roasted, it provides essential nutrients and energy. Additionally, the fruit's yellow viscous fluid is harnessed to create an array of delectable sweet dishes, jams, and cordials, adding a flavorful dimension to culinary traditions. Furthermore, the roots of the Palmyra Palm are also edible, expanding its culinary applications. Beyond its nutritional value, decoctions derived from the tree's roots are utilized in addressing ailments such as gonorrhoea and respiratory disorders,

contributing to the tree's medicinal versatility. Recently, ten socially responsible students from the Second Year B.Sc. Computer Science (Group A) took initiative to contribute to their community by planting Palmyra Palm trees in Kakkalipatti, Kottairuppu village, on October 22, 2022. To commence the endeavor, the students meticulously prepared 50 Palm seeds, ensuring the foundation for sustainable growth. Subsequently, they diligently dug holes for sowing the seeds, laying the groundwork for the trees' future development. Through their concerted efforts and active participation, the students successfully executed the tree-planting activity, fostering environmental conservation and community well-being. By embracing their social responsibility, these students exemplify the potential for youth-led initiatives to make meaningful contributions to society, promoting sustainability and holistic health within their community.

Outcome of the Programme:

The outcome of the Palmyra Palm planting activity resulted in the beautification of the surroundings and the preservation of indigenous plant species. Participants contributed to environmental conservation efforts by planting Palmyra Palms, which are not only aesthetically pleasing but also play a vital role in maintaining ecological balance. This activity instilled a sense of responsibility towards nature and fostered a deeper appreciation for native plant species among the participants.

Activity -2: Road Safety Awareness

Group-B Participants List

In today's fast-paced world, road safety has become a paramount concern due to the alarming rate of road accidents. Recognizing the importance of safeguarding the well-being of all road users, including humans and other living beings, eight socially responsible students from the Second Year B.Sc. Computer Science (Group B) took the initiative to conduct a Road Safety Awareness Programme in Singampunari on October 22, 2022. The students embarked on their mission by meticulously preparing ten posters elucidating the basic traffic rules and emphasizing key safety measures, such as the importance of wearing helmets while traveling on two-wheelers, fastening seat belts in cars, and refraining from driving under the influence of alcohol. These informative visuals served as effective tools for raising awareness and promoting responsible road behavior among the public. Taking to the Tiruppattur-Dindigul road, the students positioned themselves strategically to engage with passing travelers. With passion and conviction, they fervently urged commuters to adhere to traffic regulations and prioritize safety on the road. Through their interactions, they conveyed crucial messages about the significance of following road safety protocols to prevent accidents and minimize risks to life and property. The success of the Road Safety Awareness Programme was attributed to the active participation of the students, who demonstrated unwavering commitment to their social responsibility. Additionally, the cooperation extended by the local police authorities played a pivotal role in facilitating the smooth execution of the initiative. Their collaboration ensured that the message of road safety resonated effectively with the community, fostering a culture of vigilance and responsibility among road users. By spearheading this awareness campaign, the students exemplified their dedication to promoting public welfare and contributing to the creation

of safer road environments. Through education and advocacy, they strive to instill a sense of accountability and mindfulness among individuals, thereby reducing the incidence of road accidents and safeguarding lives.

Outcome of the Programme:

The Road Safety Awareness programme resulted in increased knowledge and awareness among participants about road safety measures and regulations. By educating the community about the importance of adhering to traffic rules, the programme aimed to reduce road accidents and promote safer roads for all. Participants learned about the significance of wearing seatbelts, using helmets, and following speed limits, contributing to a culture of responsible driving and pedestrian safety.

Road Safety Awareness -Group B

Activity -3: Kavalan App Awareness

Group-C Participants List

Name of the Student	University Number	Activity Name	Place	Date	No. of the Students

M.Sathana	0521128023	awareness			
P.Thrissha	0521128027				

On October 22, 2022, the three subgroups comprising fourteen students each of Second Year B.Sc. Computer Science (Group C – Girls) demonstrated their social responsibility by conducting awareness programs on the Kavalan App in three different locations: Thiruvudaiyarpatti, Tiruppattur, and Kottaiyiruppu. The Kavalan App, designed by the Tamil Nadu Police, serves as a vital tool for seeking immediate police assistance in various emergency situations, including physical emergencies, eve-teasing, kidnapping, and natural disasters like floods and earthquakes. With a commitment to empowering the residents of Tamil Nadu with knowledge about this essential safety resource, the students embarked on their mission to raise awareness about the Kavalan App. They employed a hands-on approach by demonstrating the app's usage on their mobile devices, ensuring that the public could grasp its functionalities and utility firsthand. Taking their initiative further, the students went door to door in each locality, engaging with residents and providing demonstrations on how to navigate the app effectively. The success of the program was attributed to the active participation and dedication of the students, who wholeheartedly embraced their role as ambassadors of safety and security in their communities. Through their efforts, they ensured that the public was well-informed about the Kavalan App and equipped with the necessary knowledge to utilize it during emergencies. By fostering awareness and facilitating access to this valuable resource, the students contributed to enhancing the safety and well-being of individuals across the region.

Outcome of the programme:

The Kavalan App Awareness initiative aimed to empower participants with knowledge about utilizing technology for personal safety and security. Participants learned about the features and functionalities of the Kavalan App, which enables citizens to seek immediate assistance during emergencies. By raising awareness about the app, the programme equipped participants with tools to enhance their safety and well-being, empowering them to take proactive measures to protect themselves and their communities.

On October 22, 2022, twelve students from Second Year B.Sc. Computer Science (Group D – Girls) exemplified their social responsibility by conducting an awareness program on the Uzhavan App in Navinipatti. The Uzhavan App, operated by the State Agriculture Department, serves as a valuable resource for farmers, aiding them in making informed decisions related to crop selection and fertilizer usage. Recognizing the importance of empowering farmers with access to such technological tools, the students undertook the task of disseminating awareness about the Uzhavan App among the agricultural community in Navinipatti. With a hands-on approach, they demonstrated the app's functionalities on their mobile devices, showcasing its capabilities to farmers individually. By meeting farmers one-on-one, the students ensured personalized assistance and guidance in navigating the app effectively. Through these interactions, farmers gained insights into selecting appropriate crops for their farms and making optimal choices regarding fertilizer usage, thereby enhancing their agricultural practices and productivity. The success of the program can be attributed to the active participation and dedication of the students, who demonstrated a genuine commitment to serving the farming community. Through their efforts, they facilitated greater access to technology-driven solutions for farmers, contributing to the advancement of agriculture and rural development in the region.

Outcome of the Programme

The Uzhavan App Awareness programme focused on educating participants about leveraging technology for agricultural development and farmer welfare. Participants learned about the functionalities of the Uzhavan App, which provides valuable information and resources to farmers for crop management, market prices, and government schemes. By promoting awareness about the app, the programme aimed to empower farmers with access to crucial agricultural information, ultimately enhancing productivity and livelihoods in rural communities.

ARUMUGAM PILLAI SEETHAI AMMAL COLLEGE, TIRUPPATTUR

DEPARTMENT OF BUSINESS ADMINISTRATION

REPORT OF EXTENSION ACTIVITY 2022-2023

In conformity with one of the goals of our college to serve the society and as a part of CBCS Curriculam (Part V) Extension activity is carried out by the Department of Business Administration regularly.

In this academic year 2022-2023, Department of Business Administration undertook extension activity in the month of October 2022. The II BBA students of Arumugam Pillai Seethai Ammal College, Tirupathur are finding solace in planting saplings of trees and created Awareness about uses and benefits of planting saplings in the schools nearby their hometown, Visit to Old age Home, , Road Safety, Visit to old age home, Awareness Against Plastic to 100 Day Scheme Workers, **and** Plantation of plamyra. The students of II BBA were grouped into a team and attended the extension activities Totally 52 students have participated in various extension activities on 21.10.2022 , 26.10.2022, 26.10.2022 and 29.10.2022.

This programme was carried out in the Government and Private School, Old age home, Temple and kandavarayanpatti, Tirupathur union as a part of the various efforts to inculcate the habit of cleanliness in the place where the education is provided,. The main objective of this awareness program is to give awareness about the uses and benefits of tree plantation and our students motivated the school student to plant at least one sapling on their birthday. Apart from that, our students have recommend planting and gifting saplings on any important events. They have created awareness among the school students about the benefits and uses of tree planting. They have created awareness about planting saplings that provide oxygen during the day. Planting in the middle of the two-lane road helps to prevent distraction of driver view from the glare of oncoming vehicles at night and prevents vehicle fumes from spreading into the air. Apart from creating awareness, they have also planted saplings at specific places in the school premises and they have nominated some students along with the school headmaster to take care of the saplings they have planted. Our Students have Engaged Activities for Elderly People at Old Age Homes which is located near kandavarayanpatti. Totally there were 50 old age people generally aged between 50 to 90 years. The Purpose behind visiting was to help senior citizen in all possible ways. They helped every senior citizen in doing their daily work. They have served food and helped them to do their day to day activity. They also cleaned

the Old age Home. The visit to the old age home was a rewarding and heart-warming experience for our students. An Awareness Programme on Road Safety was carried out in Karpaga Vinayaga Primary School, Pillyarpatti and the Students were given awareness about traffic rules, the skill and knowledge to cross the road and traffic signals and Road Safety. Awareness against usage of plastics were given among the workers working in 100-Day Scheme. They were also suggested to use alternatives like cloth bags and paper bags instead of plastic bags and to avoid drinking bottled water which contributes largely to plastic pollution. Palmyra Plantation work was carried out in Ranasingapuram near Tiruppathur. It, requires less water for growth and survival and it produce oil, lumber, woven materials, multiple food sources, drinks, insulation, and so much more. Students also visited old age home and helped senior citizen in all possible ways and served lunch to them. Covid 19 awareness was given among workers working in 100 day scheme and to school students to protect themselves by getting vaccinated, procedure to clean their hands, maintain safe distance.

Awareness about Uses and Benefits of Planting Saplings

- The main objective of this awareness is that every student should plant at least one sapling on his birthday. Apart from that, we recommend planting and gifting saplings on any important events.
- We created awareness among the school students about the benefits and uses of tree planting.
- We created awareness about planting saplings that provide oxygen during the day
- Planting in the middle of the two-lane road helps to prevent distraction of driver view from the glare of oncoming vehicles at night and prevents vehicle fumes from spreading into the air.
- Apart from creating awareness, we have also planted saplings at specific places in the school premises and we have appointed some students along with the school headmaster to take care of the saplings we have planted.
- Due to the awareness, the students said that they themselves will plant the saplings by species and plant them in appropriate places.
- An Awareness Programme and Tree Plantation work was carried out in SPD Kandavarayanpatti Middle School. All students were informed about the need of “Tree plantation” and motivate them to protect tree after plantation. Trees are essential and play an important role in our day today life by producing oxygen and by nature it improves physiological, mental and spiritual health of an individual.

- Tree Plantation was carried out in School Campus to promote Green Campus, safeguard and preserve the environment. Trees represent life, growth, peace and nature.

Visit to Old age Home

- Our Students have Engaged Activities for Elderly People at Old Age Homes. They have served food and helped them to do their day to day activity. They also cleaned the Old age Home. The visit to the old age home was a rewarding and heart-warming experience for our students.
- Students visited old age home and helped senior citizen in all possible ways and served lunch to them. Totally there were 27 senior citizen aged between 50 to 90 years. Our students helped everyone in doing their daily work and lunch was served by our students. The old senior citizen expressed their gratitude to our students

Awareness about Road Safety

- An Awareness Programme on Road Safety was carried out in Karpaga Vinayaga Primary School, Pillyarpatti and the Students were given awareness about traffic rules, the skill and knowledge to cross the road and traffic signals and Road Safety.

Awareness against usage of plastics

- Awareness against usage of plastics were given among the workers working in 100-Day Scheme. They were also suggested to use alternatives like cloth bags and paper bags instead of plastic bags and to avoid drinking bottled water which contributes largely to plastic pollution.
- Awareness against usage of plastics were given among the students studying in Panchayat Union elementary School, Elangudi, Managiri Post, Kallal Union, Sivagangai Dt. They were also suggested to use alternatives like cloth bags and paper bags instead of plastic bags and to avoid drinking bottled water which contributes largely to plastic pollution.

Plantation of Palmyra

- Palmyra Plantation work was carried out in Ranasingapuram near Tiruppathur. It, requires less water for growth and survival and it produce produce oil, lumber, woven materials, multiple food sources, drinks, insulation, and so much more.

Awareness on Yoga and Meditation

Awareness on Yoga and Meditation was given among students studying in Middle School, Vengaipatti. They are also instructed and trained some Regular yoga and meditation which positively affect both psychosocial and mental well-being as well.

Extension Activity

Extension activity provides a link between the College and the Society. In order to create socially sensitive citizens, the second year students are made aware of the common extension activities through department specific extension activities during the Induction Programme at the commencement of each academic year. Staff members and students of all the department of Arumugam Pillai Seethai Ammal College adopted villages in an endeavour to carry out welfare measures to the people of surrounding village.

Activity 1: Tree Plantation

On October 31st, 2022, the Department of History organized a one-day extension activity at Singampunari Panchayat Union Middle School, focused on green initiatives and tree plantation. The event saw enthusiastic participation from the department's second-year students, who actively engaged in planting saplings of various trees such as Neem, Peepal, Sal, Gulmohar, Ashoka, Blueberry, and Banyan. The initiative aimed not only to beautify the surroundings but also to provide the community with sustainable resources, as many of these trees bear fruits and nuts that can be utilized for livelihood purposes. The nine students who took part in the program demonstrated commendable social responsibility and willingly contributed their efforts to the cause. In addition to the tree planting activities, the students also took it upon themselves to raise awareness about the importance of tree plantation in reducing air pollution. They prepared banners that highlighted the benefits of planting trees for the environment and community well-being. Moreover, the students enthusiastically raised slogans to further emphasize the significance of tree plantation and environmental conservation among the local community. Through their proactive involvement and dedication, the students of the Department of History not only contributed to the greening of the area but also fostered a sense of environmental consciousness among the residents of Singampunari Panchayat Union. Their efforts serve as a shining example of how academic institutions can actively engage in community initiatives for the betterment of society and the environment.

Outcome of the Programme:

Outcome of the tree plantation activity resulted in a greener and more sustainable environment. Participants contributed to increasing green cover, which aids in carbon sequestration and mitigating climate change effects. Additionally, the activity fostered a sense of environmental stewardship and community involvement among participants, promoting the importance of preserving and protecting nature for future generations.

Tree Plantation at singampunari Panchayat union middle school

Activity 2: Yoga Programme

Department of History carried one day awareness program at Vanjinipatti middle school on 31.10.2022. The objective of this programme is to create awareness among the school going children and village people about the purpose of Yoga.. In the programme 18 students of our department effectively participated with the social view and voluntarily involved awareness programmes. More than 60 children's were benefitted in these programmes.

Outcome of the Programme:

The yoga programme yielded various positive outcomes, including improved physical and mental well-being among participants. Through practicing yoga, individuals experienced reduced stress levels, increased flexibility, and enhanced overall health. Furthermore, the programme encouraged mindfulness and self-awareness, empowering participants to lead healthier lifestyles and manage stress more effectively in their daily lives.

Yoga Programme at Vanjinipatti- Middle

Activity 3: Uzhavan App, KavalanApp and Women Empowerment

On October 31st, 2022, the Department of History organized a one-day awareness program at Iranuyur-Ammapatti Middle School with a focus on introducing the Uzhavan app, Kavalan app, and women's empowerment initiatives to the schoolchildren and villagers. The primary objective of this program was to create awareness, particularly among women, regarding the use and benefits of these applications, as well as to empower them with knowledge and tools for their safety

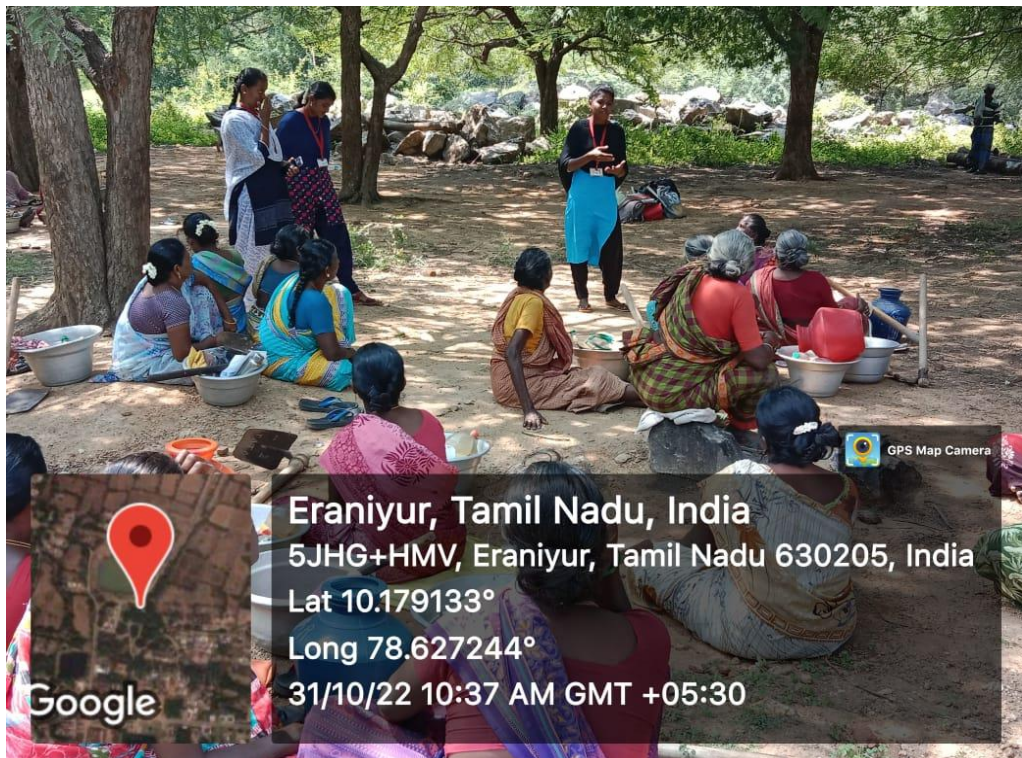

and well-being. During the program, students were given detailed instructions on how to install and utilize the Kavalan app effectively. They were educated about the emergency feature of the app, wherein pressing the SOS button on the home page initiates a 5-second countdown. Following this countdown, the app automatically sends the user's current location, along with a video captured by the rear camera, to the Kavalan team. Within a minute, the team contacts the user, while simultaneously sending the location as an SMS alert to registered emergency contacts. Through hands-on demonstrations and practical guidance, students were equipped with the necessary skills to navigate the app confidently in times of need. The participation of students from the History department was instrumental in effectively delivering the awareness programs. With a keen social perspective and voluntary involvement, these students ensured that the information reached the participants in a clear and accessible manner. It is estimated that more than 60 individuals, including schoolchildren and villagers, benefited from the program, gaining valuable insights into personal safety measures and the use of technology for emergency assistance. By organizing this awareness program, the Department of History demonstrated its commitment to community engagement and empowerment, particularly in promoting the safety and well-being of women. Through education and awareness, initiatives like these contribute to creating safer and more informed communities, ultimately fostering a culture of empowerment and resilience.

Outcome of the Programme

The Uzhavan App and Kavalan App awareness, coupled with women empowerment initiatives, resulted in increased access to valuable resources and support for rural communities and women. Participants gained knowledge about utilizing technology for agricultural development and personal safety, empowering them with tools to improve livelihoods and enhance safety and security. Additionally, the women empowerment component aimed to promote gender equality and provide women with opportunities for education, employment, and leadership, thereby contributing to overall community development and empowerment.

Uzhavan App Programme

Activity 4: First aid Program

On October 31st, 2022, the Department of History initiated a one-day awareness program focusing on first aid and yoga at Chellam Patti Middle School. The primary objective of this program was to instill awareness and understanding of basic first aid practices among schoolchildren and villagers alike. To ensure the effectiveness of the program, a two-day orientation session on first aid was conducted for the students by dedicated staff members of the History department. During the program, students were provided with comprehensive instruction on various aspects of first aid, including the fundamental principles, common emergencies, and appropriate response techniques. To aid in visual learning and understanding, illustrated guides and posters depicting first aid procedures were distributed among the students. These visual aids served to reinforce the knowledge imparted during the orientation sessions, ensuring that students had clear and concise guidance on how to administer basic first aid in different scenarios. Furthermore, the program also included sessions on the benefits and practice of yoga, emphasizing its role in promoting physical and mental well-being. Students were introduced to basic yoga poses and breathing exercises, highlighting their potential for stress reduction, flexibility improvement, and overall health enhancement. Through these sessions, participants were encouraged to incorporate yoga into their daily routines as a means of maintaining a healthy lifestyle. By organizing this awareness program, the Department of History demonstrated its commitment to community engagement and welfare. By equipping school children

and villagers with essential first aid knowledge and introducing them to the benefits of yoga, the program aimed to empower individuals to take proactive measures for their health and well-being. Such initiatives underscore the integral role that educational institutions can play in fostering a culture of health awareness and self-care within local communities.

First aid Program at Chellampati Middle School

Outcome of the Program:

The first aid program equipped participants with essential life-saving skills and knowledge, resulting in improved emergency response capabilities within the community. School students learned how to administer first aid in various situations, including injuries, accidents, and medical emergencies, thereby increasing the likelihood of positive outcomes, and reducing the severity of injuries. Additionally, the program fostered a culture of preparedness and safety awareness, empowering individuals to take proactive measures to ensure the well-being of themselves and others in emergency situations.

TECHNOLOGY**

INFORMATION TECHNOLOGY

EXTENSION ACTIVITY

In this year 35 B.Sc.IT students organized extension activity in their native places and nearby government schools as a team on 18.10.2022 & 19.10.2022. Our students carried out the following activities.

- Teaching Computer Literacy program
- (Fundamentals of Computer, Paint Brush , MS-Word).
- Environmental Pollution (Plastic:Water , Soil and Air Pollution).
- Clean India- Tree Plantation – Rainwater Harvesting.
- Raising awareness of health risks associated with smoking Cigarette,Alcoholic drinks& Drug abuse.
- Health awareness (Covid 19- Corona symptoms , Dengue , Malaria Fever)
- App Demo:KaavalanApp, Uzhavan APP ,KaavalUdhavi APP (New one),
- TN Smart APP(Disaster),mPARIHAVAAN APP (Transport).

Computer literacy program to school students

Most of government School students found it difficult to adapt to computer classes. Since they were new to the digital platform. In this regard, our students taught Paintbrush, Microsoft Word, Microsoft power point, and the basics of the internet to the school children. Our students assisted them and created mail IDs and also taught the students how to download the materials from e-learning platforms.

Our students were also involved in tree plantations. They planted saplings in the school where they studied higher education and also in their own street. Besides the plantation, students also constructed plant guard in order to avoid gracing. Awareness program related to rain water harvesting, save our nature from plastic and pollution was given to the school students and village people. They convinced by telling them that this newly infectious disease can be controlled by taking vaccines. They urged the village people to take vaccines which is the only hope to eradicate the covid-19. They also taught them methods how to sanitize and maintain social distance.

Computer literacy program to school students

Health awareness to village people

Outcome of the Programme:

Extension activity organized by 35 B.Sc.IT students, including teaching computer literacy, raising awareness of health risks, and conducting tree plantations and environmental awareness programs.

- 35 B.Sc.IT students organized an extension activity in their native places and nearby government schools.
- They taught computer literacy programs, including fundamentals of computer, Paint Brush, and MS-Word.
- They also conducted awareness programs on environmental pollution, health risks, and app demonstrations.

VISIT TO OLD AGE
HOME

March 10, 2023,
10.00 AM - 4.00 PM

Organized by
DEPARTMENT OF BOTANY

OUTREACH PROGRAMME ACTIVITY REPORT

The Department of Botany organized a visit to the Old Age Home on 10.03.2023, aiming to instill social values in students and provide companionship and support to the elderly residents. The visit was a testament to our commitment to spread love and kindness in our community. The purpose of the visit was to engage students in understanding the plight of the elderly who either lack family support or have been abandoned, and to encourage empathy and compassion among them. Upon arrival, students interacted with the elderly residents, engaging in conversations to learn about their life experiences, challenges, and aspirations. This exchange of information helped students gain insight into the struggles faced by the elderly. Recognizing the emotional needs of the elderly, students expressed love and affection towards them. Small gestures such as offering words of kindness, listening attentively, and providing companionship were invaluable in uplifting their spirits. Students provided aid in various forms, including distributing fruit, stitching worn-out materials, and providing warm clothing such as woolen caps, sweaters, and blankets. These essentials were crucial in ensuring the comfort and well-being of the elderly residents. As a gesture of solidarity, students shared a meal with the elderly residents, fostering a sense of camaraderie and belonging. This shared experience created a bond between the students and the elderly, leaving a lasting impression on both parties. During the visit, it was observed that while some elderly residents were at the home by choice, the majority were grappling with feelings of depression and loneliness. This reaffirmed the importance of initiatives aimed at providing emotional support and companionship to the elderly. The visit to the Old Age Home was a resounding success, with forty students actively participating in the event. It served as a reminder of the transformative power of love, compassion, and human connection. Through our collective efforts, we were able to make a meaningful difference in the lives of the elderly residents, leaving behind a legacy of kindness and empathy.

Outcome of the Program:

The outcome of the Department of Botany's visit to the Old Age Home on 10.03.2023 was profound and impactful. Through their engagement with the elderly residents, students gained a deeper understanding of the challenges faced by the elderly, including feelings of loneliness and depression. The exchange of information and expressions of love and affection from the students uplifted the spirits of the elderly, providing them with companionship and emotional support. The provision of aid in the form of fruit, warm clothing, and shared meals further enhanced the well-being of the residents. The visit fostered a sense of camaraderie and belonging between the students and the elderly, leaving a lasting impression on both parties. Overall, the visit was a resounding success, highlighting the transformative power of love, compassion, and human connection in making a meaningful difference in the lives of the elderly residents.

From October 31st to November 7th, 2022, the second-year mathematics students of APSA College, Tirupattur, took a proactive step in their own community by demonstrating the functionality and importance of the Kavalan-SOS mobile app. Through engaging demonstrations and informative sessions, they highlighted the significance of this app, particularly for the residents of Tamil Nadu, especially women and the elderly, who may find themselves in vulnerable or threatening situations. The students emphasized that with the Kavalan-SOS mobile app, individuals can swiftly access police assistance wherever they may be, ensuring a rapid response to emergencies. During the demonstrations, attendees were educated about the app's features, particularly its utility during natural calamities. It was elucidated that in times of crisis, the app serves as a crucial lifeline, allowing users to promptly contact the police for aid. One of the standout features explained was the SOS button prominently displayed on the home page of the app. It was demonstrated that in an emergency scenario, pressing this button triggers a countdown of 5 seconds. Upon completion of the countdown, the app automatically dispatches the user's current location, accompanied by video footage from the rear camera to the security team. The attendees were reassured that this swift action ensures that help is on its way within minutes. Additionally, as a safety measure, the app simultaneously sends an SMS alert containing the user's location to their registered emergency contacts, ensuring that loved ones are informed of the situation. The students' thorough explanations and hands-on demonstrations equipped the public with the knowledge and confidence to effectively utilize the Kavalan-SOS app in times of need. Through their efforts, these students not only promoted the adoption of technology for personal safety but also instilled a sense of empowerment within the community. By spreading awareness and providing practical guidance, they contributed to creating a safer environment for all residents of Tamil Nadu. This demonstration serves as a testament to the proactive role that young individuals can play in fostering community resilience and security.

Outcome of the Program

The program yielded significant outcomes for various stakeholders involved. Through the proactive efforts of the second-year mathematics students of APSA College, Tirupattur, and their engaging demonstrations, attendees, including residents of Tamil Nadu, women, and the elderly, were empowered with essential knowledge about the Kavalan-SOS mobile app. This heightened awareness and understanding of the app's features and utility served to empower individuals to utilize technology effectively for their safety. Stakeholders such as law enforcement agencies also benefited from increased

public engagement with the app, potentially leading to quicker response times during emergencies. Ultimately, the program contributed to fostering a safer environment for all residents of Tamil Nadu, highlighting the collective responsibility and impact that community-driven initiatives can have in promoting personal safety and security.

Activity 2: ASSISTING PUBLIC IN FILLING FORMS

S. No.	NAME OF THE STUDENT	UNIVERSITY NUMBER	ACTIVITY NAME	PLACE	DATE	NO. OF THE STUDENT
1	P.ABIRAMI	0521121002	ASSISTING PUBLIC IN FILLING FORMS	Singampunari	05/11/2022	7
2	T.ARCHANA	0521121006	ASSISTING PUBLIC IN FILLING FORMS	Singampunari	05/11/2022	
3	V.DHANALAKSHMI	0521121009	ASSISTING PUBLIC IN FILLING FORMS	Ponamarvathi	05/11/2022	
4	D.JOSPHIN PRAKASAM	0521121016	ASSISTING PUBLIC IN FILLING FORMS	Singampunari	05/11/2022	
5	K.MADHUMITHA	0521121020	ASSISTING PUBLIC IN FILLING FORMS	Ponamarvathi	05/11/2022	
6	N.NANDHINI	0521121026	ASSISTING PUBLIC IN FILLING FORMS	Singampunari	05/11/2022	
7	M.PONMANI	0521121027	ASSISTING PUBLIC IN FILLING FORMS	Ponamarvathi	05/11/2022	

The Department of Mathematics at Arumugam Pillai Seethai Ammal College, in a commendable departure from traditional academic pursuits, embarked on a significant community outreach initiative in 2022-2023. This report highlights the department's "Assisting Public in Filling Forms" activity, showcasing its impactful contribution to local communities. Seven students – P. Abirami, T. Archana, V. Dhanalakshmi, D. Josephin Prakash, K. Madhumitha, N. Nandhini, and M. Ponmani – served as vital resources for residents of Singampunari and Ponamarvathi villages. These future mathematicians tackled the complex realm of government forms, assisting over 30 individuals with tasks such as:

Completing applications for ration cards, scholarships, disability certificates, and social security benefits.
Facilitating bank account openings.

Demystifying bureaucratic language and procedures.

This initiative transcended mere form-filling; it fostered critical engagement between the college and the community. Students honed their communication and service skills while residents gained crucial access to essential services and entitlements. The project fostered understanding and strengthened ties, transforming village squares into temporary centers of empowerment. In conclusion, the Arumugam Pillai Seethai Ammal College Math Department's "Assisting Public in Filling Forms" activity underscores the transformative potential of community outreach. By bridging the gap between academic theory and practical application, the department is not only empowering individuals but also enriching the social fabric of its surrounding communities. This commitment to social responsibility sets a commendable example for academic institutions across the nation.

Outcome of the Program:

Department of Mathematics at Arumugam Pillai Seethai Ammal College initiated the "Assisting Public in Filling Forms" activity, led by seven students. They aided over 30 residents of Singampunari and Ponamarvathi villages in completing government forms, facilitating access to essential services. The program fostered community empowerment, enhanced student skills, and strengthened ties between the college and the community. Future plans include expanding services and implementing sustainable support mechanisms.

Activity 3: TREE PLANTING

S. No.	NAME OF THE STUDENT	UNIVERSITY NUMBER	ACTIVITY NAME	PLACE	DATE	NO. OF THE STUDENT
1	S.A.AMIRTHAVARSHINI	0521121003	Tree Planting	Kandavarayanpatti	06/11/2022	5
2	D.GOKILA	0521121011	Tree Planting	Singampunari	02/11/2022	
3	D.GOPIKA	0521121012	Tree Planting	Oduvanpatti	03/11/2022	
4	P.PRIYADHARSHINI	0521121028	Tree Planting	Pudhuvaadi	06/11/2022	
5	R.VISALINI	0521121038	Tree Planting	Pudhuvaadi	06/11/2022	

Department of Mathematics at Arumugam Pillai Seethai Ammal College, in a commitment to environmental stewardship, launched a tree planting initiative in 2022-2023. This report highlights the department's efforts to create a more sustainable future for local communities. Five students – S.A. Amirthavarshini, D. Gokila, D. Gopika, P. Priyadharshini, and R. Visalini – participated in the initiative, planting a total of 20 trees in three villages: Kandavarayanpatti, Singampunari, and Oduvanpatti. The trees included a variety of species, such as neem, mango, and tamarind. The students worked closely with local residents to plant the trees. They provided instructions on how to care for the trees and encouraged residents to participate in the planting process. The initiative was a valuable learning experience for the students, who gained a deeper understanding of the importance of environmental conservation. The tree planting initiative had a positive impact on the local communities. The trees will provide shade, food, and oxygen for years to come. They will also help to improve air quality and reduce pollution. The initiative also fostered a sense of community among the participants, who came together to work towards a common goal. The Math Department is committed to continuing the tree planting initiative in future years. The department plans to expand the scope of the initiative to include more villages and to plant a wider variety of trees. The department is also considering partnering with other organizations to promote environmental conservation. Arumugam Pillai Seethai Ammal College Math Department's tree planting initiative is a valuable contribution to the communities it serves. The initiative is helping to create a more sustainable future for the planet and is inspiring others to take action to protect the environment.

Outcome of the program

The tree planting initiative by the Department of Mathematics at Arumugam Pillai Seethai Ammal College in 2022-2023, involving five students, has yielded significant outcomes. By planting 20 trees across three villages and engaging local residents in the process, the initiative has enhanced environmental sustainability and fostered community engagement. Participating students gained valuable hands-on experience in environmental conservation, while the planted trees will provide long-term benefits such as shade, food, and improved air quality. The Math Department plans to continue and expand the initiative, underscoring its commitment to environmental stewardship and community well-being.

Activity 4: AWARENESS PROGRAM

S. No.	NAME OF THE STUDENT	UNIVERSITY NUMBER	ACTIVITY NAME	PLACE	DATE	NO. OF THE STUDENT
1	R.ARTHI	0521121007	AWARENESS PROGRAM (ABOUT 1098)	Nemam	04/11/2022	6
2	S.DEVADHARSHINI	0521121008	AWARENESS PROGRAM (ABOUT 1098)	Nemam	04/11/2022	
3	PR.MAHALAKSHMI	0521121021	AWARENESS PROGRAM (ABOUT 1098)	Oduvanpatti	03/11/2022	
4	R.MANIMEGALAI	0521121022	AWARENESS PROGRAM (ABOUT TRAFFIC RULES)	Velanipatti	02/11/2022	
5	S.MOKANAVALLI	0521121024	AWARENESS PROGRAM (ABOUT TRAFFIC RULES)	Naganampatty	04/11/2022	
6	K.MOUNIKA	0521121025	AWARENESS PROGRAM (ABOUT 1098)	Manjinipatty	04/11/2022	

Six students – R. Arthi, S. Devadarshini, PR. Mahalakshmi, R. Manimegalai, S. Mokanavalli, and K. Mounika – spearheaded the program, reaching residents across six villages: Nemam, Oduvanpatti, Velanipatti, Naganampatty, and Manjinipatty. The program tackled pressing societal concerns by focusing on two key areas: 1. Childline India Foundation 1098 Helpline: Arthi, Devadarshini, and Mounika conducted sessions in Nemam and Manjinipatty, respectively, raising awareness about the 1098 helpline dedicated to protecting children from abuse and exploitation. These sessions equipped residents with critical information on identifying vulnerable situations and reporting concerns, potentially safeguarding countless children. 2. Traffic Safety Education: Manimegalai and Mokanavalli addressed the crucial issue of road safety in Velanipatti and Naganampatty. Through interactive sessions, they educated residents on essential traffic rules and responsible driving practices. This proactive effort aimed to foster awareness and prevent accidents, contributing to safer roads for all. The Awareness Program resonated with local communities, with over 30 individuals actively participating in each session. The interactive format, combined with the students' clear and engaging communication, ensured effective

knowledge dissemination. This initiative fostered a sense of agency and encouraged positive behavioral change within the communities. The Math Department is committed to expanding the program's reach and impact in the coming year. Plans include: Introducing new topics such as health awareness and financial literacy.

Outcome of the Program:

The program led by six students – R. Arthi, S. Devadarshini, PR. Mahalakshmi, R. Manimegalai, S. Mokanavalli, and K. Mounika – made a significant impact across six villages by focusing on Childline India Foundation 1098 Helpline awareness and Traffic Safety Education. Sessions conducted in Nemam and Manjinipatty raised awareness about child protection, while in Velanipatti and Naganampatty, road safety education was emphasized. Over 30 participants engaged in each session, benefiting from clear communication and interactive learning. The program fostered positive behavioral change and community empowerment. Future include expanding topics to health awareness and financial literacy to further support local communities.

Translation of the above certificate

This certificate is awarded to R. Aarthi of II B.Sc Maths in recognition of her exemplary extension activity on raising awareness about the Child Helpline. Through her dedicated efforts, she has played a crucial role in educating our community about the importance of the Child Helpline in providing support and assistance to children in need. Her commitment to safeguarding the well-being of children and promoting their rights is commendable. We extend our heartfelt appreciation to R. Aarthi for her valuable contribution to creating a safer and more supportive environment for children in our community.

Translation :

This certificate is presented to Manimeghalai, II BSc Maths student, in recognition of her outstanding dedication and commitment to raising awareness on traffic rules. Through her efforts, she has contributed significantly to promoting road safety within our community. Her initiative in educating others about traffic regulations and safe driving practices has not only increased awareness but has also helped in fostering a culture of responsible and cautious driving. Manimeghalai's proactive approach and passion for creating safer roads deserve commendation and appreciation. We express our sincere gratitude for her valuable contribution towards enhancing road safety and ensuring the well-being of our community members.

DEPARTMENT OF PHYSICS

ARUMUGAM PILLAI SEETHAI AMMAL COLLEGE

DEPARTMENT OF PHYSICS

EXTENSION ACTIVITIES REPORT - Academic year 22 – 23.

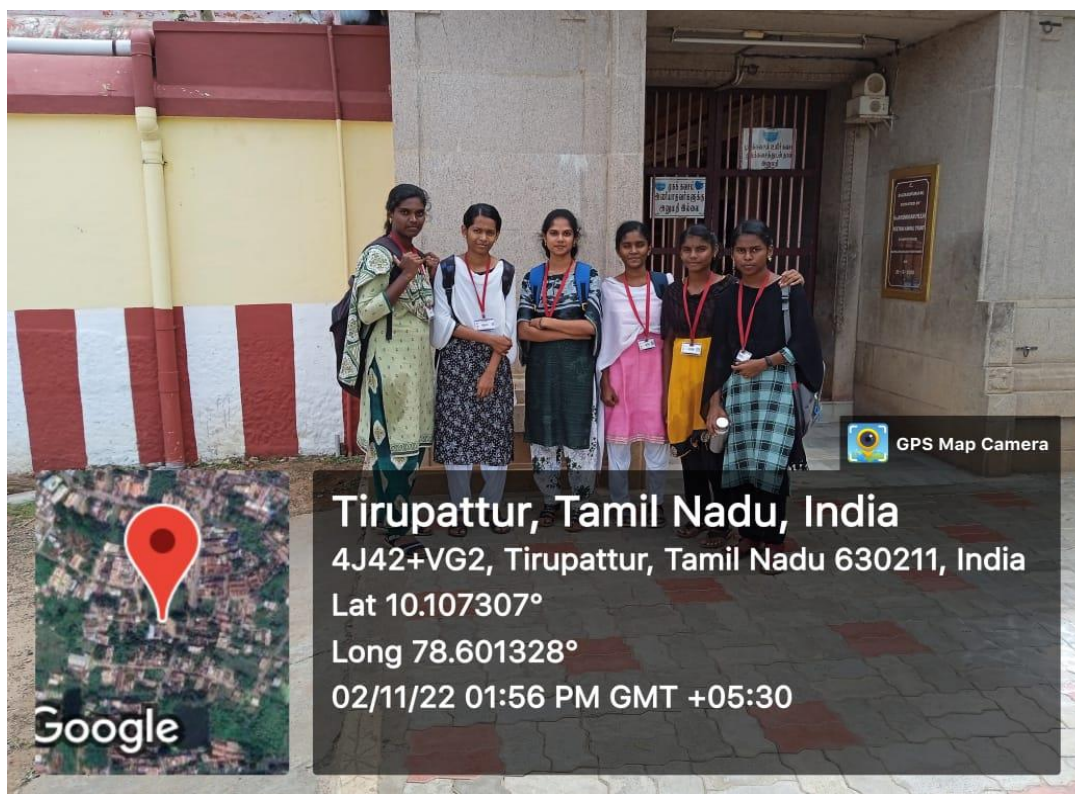

Activity 1 Temple cleaning:

II-year Physics students from Arumugam Pillai Seethai Ammal College were divided into six groups for their Extension Activities, as part of their Bachelor of Physics degree requirements. These groups visited various locations, including Poomayee Temple in Tiruppattur, a traffic signal in Karaikudi, AL-Ammen Urdu Tamil High School in Melur, and Government Girls High School in A. Kalapoor, Navinipatti. On 2nd November '22, six students, all girls, went to Poomayee Amman Temple in Tiruppattur with the purpose of cleaning the temple premises. Upon arrival, they promptly began cleaning the areas in front of the temple and proceeded to wash the temple itself. During their visit, they also took the opportunity to engage with elderly individuals, inquiring about their needs and helping. They provided food, biscuits, and shared words of kindness and compassion with them.

Outcome of Temple Cleaning:

The temple cleaning initiative led by II-year Physics students from Arumugam Pillai Seethai Ammal College significantly improved the cleanliness and aesthetics of Poomayee Temple in Tiruppattur. Their proactive engagement not only enhanced the temple premises' hygiene but also fostered a sense of community pride and responsibility. Additionally, their compassionate interaction with elderly individuals, aiding and essentials, contributed to their well-being and strengthened community connections.

Translation of the above certificate

This is to certify that S. Mahakeerthi, M. Maheswari, KR. Ponnalagu, G. Tamilselvi, A. Kavitha, and K. Rajeswari actively participated in the temple cleaning initiative at Poomayee Temple, Tiruppattur, on November 2nd, 2022. Their dedication and hard work significantly contributed to maintaining the cleanliness and sanctity of the temple premises. We extend our heartfelt appreciation for their invaluable efforts and commitment to serving the community.

Activity 2:

Awareness program on Road safety rules and regulation and importance of wearing Helmet

In today's world road and transport has become an integral part of every human being. Every body is a road user in one shape or the other. The present transport system has minimized the distances but it has on the other hand increased the life risk. Every year road crashes result in loss of lakhs of lives and serious injuries to crores of people.

S. No	Name of the Student	University Number	Activity Name	Place	Date	No. of the Student

	A.Jeyaraj	0521122026				
	A.Yuvaraj	0521122038				
	P.Siva	0521122036				

In India itself about eighty thousand people are killed in road crashes every year which is thirteen percent of the total fatality all over the world. In most of the cases crashes occurs either due to carelessness or due to lack of road safety awareness of the road user. Hence, road safety education is as essential as any other basic skills of survival. Our students are provided road safety information for road users to encourage safer road user behaviour among current and prospective road users and reduce the number of people killed and injured on our roads every year. They insisted to wear helmet to avoid the head injury during road riding.

Outcome of the Program :

Awareness Program on Road Safety Rules and Helmet Importance:

The awareness program on road safety rules and the importance of wearing helmets organized by the students aimed to educate participants on crucial safety measures. Through interactive sessions, they successfully conveyed the significance of adhering to traffic regulations and wearing helmets for personal protection. This initiative has the potential to reduce road accidents and injuries by promoting safer driving practices among community members.

Our students A.Jeyaraj, A.Yuvaraj and M.Adhithya II Physics students give the awareness program on road safety to the public on 14.11.22 at Traffic signal, Karaikudi.

Our students M.Mogeshwaran, D.Sanjay, V. Sriramachandran, V.Nagarathinam, S.Sangeshwaran, M.Santhosh and P.Siva II Physics at the awareness program on road safety to the public people on 4.11.'22 at Traffic signal, Karaikudi.

Translation of the above two certificates

This is to certify that M. Mogeshwaran, D. Sanjay, V. Sriramachandran, V. Nagarathinam, S. Sangeshwaran, M. Santhosh, M. Adhithya, C. Kabilan, K. Naveen, A. Jeyaraj, A. Yuvaraj, and P. Siva conducted an awareness program on road safety rules and regulations, with a focus on helmet usage, in Karaikudi on November 4th and 14th, 2023. Their efforts in educating the community about essential traffic safety measures, including the importance of wearing helmets, have contributed significantly to promoting road safety and reducing accidents. We express our sincere gratitude for their dedication and commitment to enhancing public awareness and safety.

Activity 3

The Kavalan app, meaning "Police" in Tamil, stands as a pioneering initiative by the Tamil Nadu Police to ensure the safety and security of its citizens, especially women and the elderly, across the state. This innovative application serves as a lifeline during emergencies, ranging from physical threats to natural disasters like floods or earthquakes. With its user-friendly interface, the Kavalan app empowers individuals to seek immediate police assistance with just a few taps on their smartphones. In a recent initiative, students have taken up the noble task of spreading awareness about the Kavalan app, particularly targeting rural area girls. These young ambassadors have embarked on a mission to equip their peers with the knowledge of downloading and operating the app effectively. By conducting awareness programs in villages, they aim to empower every individual, especially vulnerable groups, to defend themselves against potential dangers. Furthermore, in their efforts to promote digital literacy and safety, these students are not only educating their fellow villagers about the Kavalan app but also providing essential guidance on the safe and responsible use of technology. They emphasize the importance of using laptops securely, navigating the internet safely, and discerning reliable sources of information. By imparting such knowledge, these young advocates are not only promoting the use of the Kavalan app but also fostering a culture of digital empowerment and resilience within their communities. Through grassroots initiatives like these, the Kavalan app transcends its role as a mere technological tool; it becomes a symbol of empowerment, solidarity, and community resilience. As these students continue to spread awareness and knowledge, they pave the way for a safer and more secure future for all citizens of Tamil Nadu.

Outcome of the Report

The students' engagement with the Kaavalan app raised awareness about its functionality and utility for accessing police assistance swiftly. By educating participants on how to use the app during emergencies, they empowered individuals to take proactive measures for their safety. This initiative contributed to enhancing community members' sense of security and confidence in utilizing technology for personal protection.

HEADMASTER
AL-AMEEN URDU TAMIL HIGH SCHOOL
MELUR-625 106, Madurai Dist.

Translation of the above certificate

This is to certify that PL. Kathaleeswari, A. Thasbiha, P. Kayalvizhi, D. Pandiselvi, and S. Vasanthi conducted an awareness program on cell phone and laptop usage at AL-Ammen Urdu Tamil High School, Melur, on November 4th, 2022. Their informative session provided valuable insights into responsible and safe usage of electronic devices, benefiting the students and staff alike. Their commitment to promoting digital literacy and responsible online behavior is commendable. We extend our sincere appreciation for their efforts in educating and empowering our school community.

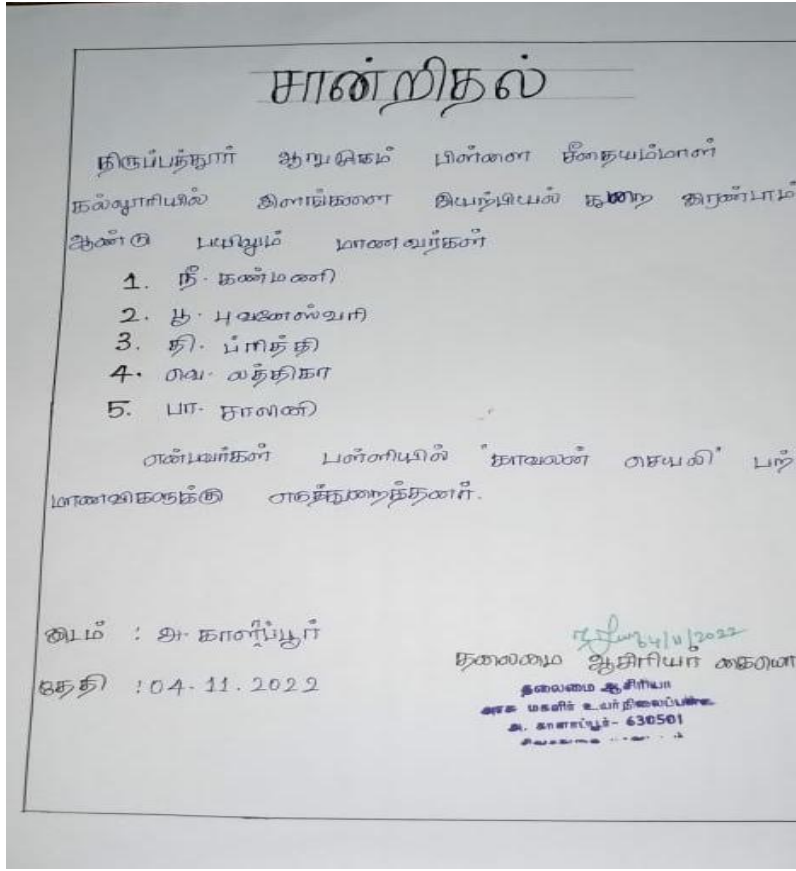

Activity 4

Our staff members briefly explained Kaavalan App at the classroom. A short message from Police of Tamil nadu was instructed to the students which will support the students in their campaign. People be in Tamil Nadu, especially, Women and elderly people can use the Kavalan whenever they feel helpless or vulnerable. People can reach the spot at the earliest possible threat when the app is used. Moreover, at times of natural disaster with the help of this app the public can seek the help of the police. They were also educated to give a clear view about the App download so that they may explain it in their campaign. Students were asked to brief the village people about “how to use the app”. Our staff members explained the process of operating the app. During an emergency, please press the SOS button on the home page. It will start a 5 second count down. After 5 seconds, the app will automatically send your current location along with a video from your back camera to the Kavalan team. Within a minute, the team will contact you. Simultaneously, your location will also be sent to your registered emergency contacts as an SMS alert The Kaavalan App awareness programme was initiated with the help of the students to create an awareness among the village girl students to protect themselves during emergency.

4.	N.Kanmani B.Bhuvaneshwari T.Prithi V.Lathika P.Shalini	0521122003 0521122002 0521122016 0521122008 0521122018	Awariness program on Kavalan App	Govt.Girls High school, A. Kaalapoor	04.11.'22	5

Our students N.Kanmani, P.Shalini B.Bhuvaneshwari, V.Lathika and T.Prithi II Physics students give the awareness program on Kavalan App to the girl student s on 4.11.'22 at Govt.Girls High school, Kaalappoor.

Translation of the above certificate

The awareness program on the Kavalan app conducted by N. Kanmani, B. Bhuvaneshwari, T. Prithi, V. Lathika, and P. Shalini at Government Girls High School, A. Kaalapor, on November 4th, 2022, received recognition through a certificate from the school's Headmaster. This acknowledgment signifies the impactful contribution of the students in educating their peers about the app's functionality and importance for personal safety. The certificate serves as a testament to their dedication and commitment to promoting safety and security within the school community.

Activity 6

Tamil Nadu Rural Employment Guarantee Scheme shall be open to all rural households (Household means a nuclear family comprising mother, father, and their children, and single parent/single member households) in the areas notified by the Government of India. The entitlement of 100 days of guaranteed employment in the financial year is in terms of households. The 100 days entitlement of a household can be shared among the members of that household. Within the said entitlement all adult members of the household can register and apply for work, provided they are residents. This implies they must be residing within the village Panchayat/special village Panchayat area and willing to do unskilled manual work. Keeping in our mind, our students are planned to awareness program to 100 days worker which is nearer to our college. The above five students described the various government schemes, health care and other facilities etc., to them. The 100-day workers gave the feedback. They assured that they are much more benefited from our student's awareness on healthcare and other govt facilities.

S.No	Name of the Student	University Number	Activity Name	Place	Date	No. of the Student
5.	S.Anushya V.Ninitha K.Nivetha M.Meenakshi S.subasankari	0521122001 0521122012 0521122013 0521122011 0521122019	Awarness Program to 100 days workers	Navinipatti	04.11.'22	5

Outcome of the Programme

Through the awareness program on government schemes, particularly the 100-Day Worker Scheme, the students facilitated access to social welfare programs for eligible individuals. By disseminating information about the scheme's benefits and application process, they aimed to improve the livelihoods of marginalized communities. This initiative underscores the students' commitment to promoting social welfare and inclusive development within the community.

II Physics students gave a general awareness program to 100 days workers on 4.11.22 at Navinipatti.

DEPARTMENT OF ZOOLOGY

DEPARTMENT OF ZOOLOGY

EXTENSION ACTIVITY- (2022-2023)

Village Extension Programme:

Village extension activities were carried out with 31 II B.Sc. Zoology students on 6.11.2022 in the following villages comes under Sivagangai District. Students have been grouped and delegated to the villages listed below. Students and staff have discussed on the previous day 5.11.2022 and finalized the extension activity according to the local needs. Students have been instructed to assemble at 9 AM in the respective villages and carried out the activities up to 4 PM.

Tree planting: This initiative likely aims to increase green cover, which can help with environmental conservation, providing shade, and improving air quality.

Mosquito eradication awareness: This program is crucial for preventing mosquito-borne diseases such as malaria, dengue fever, and Zika virus by educating communities on ways to eliminate breeding grounds for mosquitoes.

Herbal Pesticide preparation training to farmers: This training could help farmers reduce their reliance on chemical pesticides, promoting more sustainable and eco-friendly agricultural practices.

Dengue awareness: Like mosquito eradication awareness, this program specifically targets dengue fever, educating communities on how to prevent and recognize the symptoms of this disease.

Pest identification in agriculture field: This program helps farmers identify different pests affecting their crops, enabling them to implement appropriate pest control measures effectively.

Palm seed plantation: This initiative likely focuses on planting palm trees, which can have various benefits such as providing shade, producing fruits (e.g., dates), and contributing to biodiversity.

Weeding in agriculture field: Weeding is essential for maintaining crop health and yields by removing competing plants that can hinder growth.

These programs seem comprehensive and tailored to the specific needs of the villages listed:

- Thattati
- Alampatty
- K.Athangudi
- Pakaneri
- Sirukoodal Patty
- Nemam Arkadu

- Pattamangalam
- Koratti
- Kilamadai-Thenkarai
- Tiruppattur

Each village may have different priorities and challenges, so implementing a variety of programs ensures that a wide range of issues is addressed. These initiatives collectively contribute to the overall development and well-being of the communities involved.

WETLAND BIRD CENSUS

Department of Forest and Environment, Government of Tamilnadu conducted Wetland bird census on 29.01.2023 in eight different tanks in Sivagangai District. Twenty four Zoology students and five faculty members from our institution have participated with Forest Department. Faculty members have participated as subject experts to identify different species of birds. Students and Forest officials have enumerated the birds. Prior to this census one day orientation programme was conducted at Vettangudi Bird Sanctuary on 28.1.2023.

Certificate distribution to the students who participated in the Wetland Bird Census

Wetland bird Census conducted at Madavarayan patty water tank

A group of Students and staff participated in the Wetland Bird Census

EXTENSION ACTIVITIES 2022- 2023

The second B.Sc. Chemistry students and the faculties along with the lab assistants participated in extension activities on 16.10.2022 at four different remote villages namely, Koratti, Thattati, Kundrakudi and Thulavoor. The second-year students (42) and third year students who didn't attend the activity in the previous year were divided in to four groups so that a group and one of the faculties will be responsible for these activities in each village. Each group taking these activities are divided into three subgroups so that each subgroup take responsibility for an activity in that village. Thus, we carried out three activities at four different villages simultaneously.

ACTIVITY – 1, KAVALAN SOS (SAVE OUR SHIP)

The Kavalan SOS free apps were introduced by Tamil Nadu government for intimating the police department when a person is in danger or needs immediate assistance. The app was introduced on 30.10.2018. Our students explained the importance of the apps among the village people especially ladies by referring an incident at Chennai. In that incident two strangers entered into the house in which two ladies were alone by saying that they are from courier firm. One of them pressed the emergency red button and alerted the nearby police station and averted the unexpected and unwanted events that might have happened. They explained that people can use the app under the following conditions to seek the police assistance instantly in emergency situations such as, Physical emergencies, Eve teasing, Kidnapping and During the natural disasters such as Floods, Earthquake, Fire, etc. Students also explained that the app will not lead to any unwanted situation by explaining what the processes are taking place when a person press the red button. On pressing of emergency red button, User live location will be shared with control room, user details will be identified, and nearest Police station / Police

vehicle will be alerted to provide required assistance to app user. SMS alert will be sent to registered friends/family members about emergency. If data is low or poor, then emergency Trigger will be sent as SMS packets to control room in order to ensure emergency service by knowing last location of the caller. Even if the user does not know read and write the user can register a specific select complaint with the help of a short video/image.

Outcome of the Programme

The outcome of the Kaavalan APP awareness program conducted by second-year students from the Chemistry department in Koratti village is multifaceted. Firstly, the program significantly heightened awareness among villagers regarding the Kaavalan app, elucidating its functionalities and potential benefits for enhancing safety and security within the community. Through interactive sessions and demonstrations, villagers gained a thorough understanding of how to download, install, and utilize the app effectively in various emergency situations. Moreover, the program facilitated meaningful engagement between the students and villagers, fostering open dialogue and the exchange of ideas. This interaction not only encouraged active participation but also provided valuable insights into the community's specific needs and concerns regarding safety measures. Additionally, the program empowered villagers by equipping them with the knowledge and tools necessary to take proactive steps towards safeguarding their well-being. By embracing modern technology and the Kaavalan app, villagers felt more empowered to respond to emergencies and report incidents promptly, thereby contributing to a safer environment for all. Furthermore, the program served as a platform for collecting valuable feedback from villagers regarding their experience with the Kaavalan app and any challenges they may encounter in its usage. This feedback will be instrumental in refining strategies and addressing any barriers to ensure sustained adoption and efficacy of the app within the community. Overall, the Kaavalan APP awareness program represents a proactive initiative that not only enhances awareness but also empowers and mobilizes the community towards collective safety and well-being.

ACTIVITY – 2, UZHAVAN APP (– உழவன் APP)

As our college is located in a rural area with the maximum of the people depending on the agricultural income we decided to make the students to involve in a process that may help the people around us in their occupation. As the agricultural industry also is slowly changing from conventional and seasonal farming method to technology based one we decided to educate the people on the facilities related to information technology. The uzhavan app is such a one the has been designed by the government for educating the people involving in the agricultural processes. This app has been designed with all essential components that may be beneficial in all aspects of farming from cultivation to marketing. A group of our students went to the four remote villages namely, Koratti, Thattati, Kundrakudi and Thulavoor and explained the following that include real-time information offered by the uzhavan app for the betterment of the uzhavar community. The services provided by the app are,

- 1) Information regarding the subsidies available in the agricultural and its related other departments.
- 2) Registration to avail subsidy on priority basis. Farmers can register in advance to avail the high value input subsidy on priority basis.
- 3) Crop insurance services including crop wise premium and the locations to which the insurance is applicable in the particular period of time.
- 4) Fertilizer stock availability in both the government and private shops on real time basis.
- 5) Seeds stock availability in both the government and private shops on real time basis.
- 6) Information on the availability of farming machineries for hiring by the registered farmers.
- 7) Market rates for farm products on real time basis.
- 8) Weather forecast for four days in advance.
- 9) Contact details and area wise visiting details of agricultural and horticultural officers on real time basis.
- 10) Water levels in major water reservoirs in Tamil Nadu and nearby states from catchment areas of the respective reservoir.
- 11) Agriculture information from the respective department on real time basis.
- 12) Feedbacks from stack holders.
- 13) Detailed crop wise technical information from sowing to harvesing.
- 14) Details of information on those who are adopting organic crop cultivation, traders and certifying agencies.
- 15) Information on farm producer organizations.
- 16) Pest and diseases identification and control including innovative and artificial intelligence technologies.

- 17) Advanced information and registration for training for farmers and demonstrations.
- 18) Details of registered online buyer and seller information for the mutual benefit of both buyers and sellers.

Outcome of the Programme

The outcome of the program conducted by second-year chemistry students on the "Uzhavan App" in Koratti, Thattati, Kundrakudi, and Thulavoor is multifaceted. Through their efforts, there has been a noticeable surge in awareness among the local population regarding this agricultural application. The program succeeded in educating farmers and agricultural workers on the functionalities of the Uzhavan App, providing them with valuable insights into how it can streamline their farming activities and improve their livelihoods. This educational initiative not only empowered the participants to make more informed decisions but also fostered a sense of community engagement, facilitating dialogue and feedback exchange between the students and the farming community. By collecting feedback from the participants, the students can now assess the efficacy of the Uzhavan App in addressing the needs and challenges faced by local farmers. Moving forward, this program sets the stage for continued support and collaboration, with the potential to make a significant impact on agricultural practices and rural development in the region.
